Remember, reading evaluations can help you make informed choices about what to check out next and can reveal you to new writers and genres you may not have actually considered before.

## REVIEW OF DIGITAL SUPPLY CHAIN POWERED BY SAP LEONARDO

- This book had a great storyline. Guy falls in love with girl through letters to her husband, who is guy's best friend. Of course he feels like it's his fault his best friend died. The letters get him through two years of recovery then he goes to make girl fall in love with him. It was a really sweet story. They only thing I didn't like is how Kyla kept saying to herself that she promised her husband that she would be faithful to him until she died. If she honestly asked herself if her husband would want that for her she would know the answer. I thought that was the only thing that went a little too far. Overall, worth reading.

- "Generation NeXt" turned out to be an intriguing read for me. I am on the line between Boomers and GenXers. Different sources have placed me in each camp, so if I'm a GenXer, I'm an old one. My review will be from the perspective of an old GenXer with a teenager and young adult children. At times, as I read "Generation NeXt" I felt exactly that, old, but then I'd turn a few pages and identify with exactly what Tricia had penned. Had I read this book when my children were younger, I think I would have gained insight leading to freedom from some guilt baggage I lugged around for far too many years. Tricia's "Generation NeXt Parenting" is an encouraging pat on the back with plenty of spiritual and practical challenges tossed in. She doesn't take traditional problems and toss out advice on how to handle it as much as she covers the holistic issues of parenting and Christlikeness. If you are looking for another parenting book that has an index and multiple tips on how to handle potty training, you won't find much in "Generation NeXt." However, if you desire to dig to underlying motivations on your part and your children's behaviors, there is help offered here. Of course, a lot of the advice is what we who call ourselves "Christian" know because it's preached from the pulpit, radio and other books. But it bears repeating until we "get" it. Tricia gives practical ideas for how to get on track or back on track spiritually so that you can be the parent God calls you

to be. I learned far more from "Generation NeXt" than I thought I would. Tricia peppers her thoughts with those from other struggling parents and facts regarding the unique building blocks GenXer's have been given. I thought of several friends who have younger children who could benefit from this book and intend to get a copy to them.
