## **REVIEW OF SEGA SATURN ISOS SATURN ROMS S THE ISO ZONE**

- I truly felt the need to read this book. After years of abusive and failed relationships I slowly became somewhat of a "man hater". I've never been able to figure any man out, and have always questioned their making. Shaunti Feldhahn does a fantastic job in this book. There was obviously a lot of thought and a lot of long hours studying, researching, and

interviewing many, many men that went into this book. She lays it all out there, the truth, be it something you want to hear or not. Why did I need to read this? Because at some point I have to realize that not ALL men are bad and I needed to understand them more to lessen my insecurities about them, and my "stereotyping" if you will of men in general. By understanding the inner thoughts and workings of a man, maybe I could gain a little more understanding about how relationships work as well. Here is a glimpse at some of the topics this book covers: Why Sex Unlocks a Man's Emotions....His Visual Rolodex: Why it's so hard for him not to

look, and so hard to forget what he's seen...The Truth About the Way You Look: Why the way you look on the outside, affects him on the inside...I felt that the author has written this book in a way to be as far from "preachy" as I can imagine. You no doubt will feel her surprise with her as she was researching and interviewing men for the survey results and other enlightening material for this book. Here is a woman who loves her husband deeply, but married life is, of course, not without hardships, misunderstanding, and frustration. She most likely became stumped by her husband one too many times and made the decision to get the "down low" of the opposite sex by

interviewing hundreds of men. She got answers, and those answers just may increase your understanding of men and strengthen your marriage to a level you thought not possible. I highly recommend this book to any woman searching for a husband, or who loves her husband, and wants to KEEP A HAPPY HUSBAND. I have 3 sons, and I find this to be appropriate in knowing how to guide them in their raising as well. This book is a must read for any women that know or are related to any men!!! I can't believe how much of a difference this book can make in any male, female relationship!!! I really feel that all

women should read this, for their brothers, fathers, spouses, significant others, and male friends sake!! I enjoyed this book, gave it a 5 star rating, and am no looking forward to getting my hands on the opposite version.....For Men Only...I'm curious to see how on spot that one is. I received this book from free from Waterbrook Publishing for review purposes. Free reception has no impact on my review. Every review on my blog is 100% true and genuine.

- I have used these problem of the day sheets in my classroom everyday with great success. I would highly recommend them to any parent or teacher.
