- "With personal accounts (including the Author's own), many questions and answers, information concerning the 7 realms of consciousness (chakras), valuable tools and how to use them, I found this book full of pearls-no occultism, no esotericism or complex and unusable information here. In my opinion, a complex process needs straight-forward explanations. A confusing and often fearful experience yearns for grounding guidance-and that's what I found in this book. The

explanations are based on the expert knowledge of one who has traversed the path to its full length and now wants to help others in finding their way home".

- The Cathayans are quite unique since they aren't like Cainites. All the secrets that you wish you knew about the Eastern vampires that could quite

possibly occupy areas like Chinatown or even back at the mainland of Asia are now yours to share once you have this book. The system regarding Cathayans is quite unique, it's impossible to not recommend this book. If you're throwing Cathayans into your campaign for other Kindred to tango with, **YOU MUST GET THIS BOOK!**
