Summary In Single Page Web Applications you'll learn to build modern browser-based apps that take advantage of stronger client platforms and more predictable bandwidth. You'll learn the SPA design approach, and then start exploring new techniques like structured JavaScript and responsive design. And you'll learn how to capitalize on trends like server-side JavaScript and NoSQL data stores, as well as new frameworks that make JavaScript more manageable and testable as a first-class language. About this Book If your website is a jumpy collection of linked pages, you are behind. Single page web applications are your next step: pushing UI rendering and business logic to the browser and communicating with the server only to synchronize data, they provide a smooth user experience, much like a native application. But, SPAs can be hard to develop, manage, and test. Single Page Web Applications shows how your team can easily design, test, maintain, and extend sophisticated SPAs using JavaScript end-to-end, without getting locked into a framework. Along the way, you'll develop advanced HTML5, CSS3, and JavaScript skills, and use JavaScript as the language of the web server and the database. This book assumes basic knowledge of web development. No experience with SPAs is required. Purchase of the print book includes a free eBook in PDF, Kindle, and ePub formats from Manning Publications. "Until now, my websites looked great but have been coded with what seems like 'duct-tape and bubble-gum' methods, just for appearances and not for professionalism or compliance. This book taught me all that is possible with HTML and CSS coding]]. What a game changer!" That's what one web designer posted about a previous edition of Murach's HTML5 and CSS3. Now, this 4th Edition updates and improves all the HTML and CSS content in the book...and it adds coverage of Flexible Box and Grid Layout, two new CSS3 ways to implement page layouts. So whether you're a web designer, a JavaScript programmer, a server-side programmer, or a rookie, this book delivers all the HTML and CSS skills that you need on the job. This book begins with an 8-chapter hands-on course that teaches you HTML and CSS from scratch, including the latest HTML5 and CSS3 features. This short course ends with a chapter that teaches you how to use fluid design and media queries to implement Responsive Web Design so your pages will look good and work right on any screen, from phone to tablet to desktop. After that, the unique design of this book lets you go on to any other chapter to learn new skills whenever you need them. For example, chapters 9 and 10 show you how to use Flexible Box and Grid Layout. Chapter 13 shows you how to work with forms and data validation. Chapter 14 shows you how to enhance a site with video clips. Chapter 16 shows you how to use CSS3 transitions, transforms, and animations. Chapters 17 and 18 show you how to design and deploy a website. Chapters 19 and 20 introduce other professional skills like how to use JavaScript and jQuery and how to use development tools like Bootstrap, SASS, and Emmet. And after you've learned all the skills that you need, this book becomes the best on-the-job reference you've ever used.

REVIEW OF HTML5 AND CSS3 SEVENTH EDITION PEARSONCMG COM

- This book really works. It teaches you about the main crystals and gems within the major groups of minerals and gemstones which are mined and occur in Wales, ...Like a few of the other reviewers, I bothered to check the facts and not the invented slander. I have interviewed two members of Dynion Mwyn who practice these magickal ways and found them to be honest and trustworthy, unlike other Pagans in Wales. Others may debate whether the "Wynne" family which taught the authors, was totally correct in their philosophy, OR their name, but I can say they believed their story, so you can't fault them on that score. I found nothing inconsistent with the ideas and claims in Crystal Magick. In fact, I was hard pressed to contradict anything they purported

to believe...it contains a few ideas and words allegedly taken from other sources! Gosh, I picked up three well known books on Welsh history today and can show you several incidents where the authors have fed off each other. so what. I have read over twenty books on Witchcraft in the last 10 years which are like reading a carbon copy of each other. But, I also have read Celtic Crystal Magick. From whatever source the co-authors obtained their material, it is fresh and absolutely wonderful. No, the critics didn't bother to read the book. They just have a problem with people reading the truth. The author(s) must be doing something right...Excellent Book on Welsh Witchcraft...

- I read this book several years ago, and loved it. But the recently released Vol II is superb. It is an excellent Crystal Magickal ritual book and gives gods and goddesses together with the purpose of the ritual and the ritual itself.
