REVIEW OF THE ORIGINS AND DEVELOPMENT OF THE ENGLISH LANGUAGE BY JOHN ALGEO

- Disturbing! This is the only single word that I can use to describe this book. Although definitely unique in the composition style, the book is dark and depressing. The theme of incest and child porn appeared to be the primary focus in the book instead of creationism as eluded to in other reviews. It had an interesting ending but not worthy of the time spent leading up to it.

- Kaplan was successful in your book by putting together very important concepts about cost: accurate use of ABC/ABM, Standard Cost with budget systems. In Brazil, since 1995, we have been developing these concepts in practical cases with major bank institutions (both Brazilian and foreign). Kaplan put light in the main concepts but failed to bring robust experiences in the Financial Sector: most of banks, brokers, insurance companies are wrong in your profitability calculations; big financial groups around the world need to build these concepts in your daily life. I hope Kaplan could help us with cases about this matter. Thank you.
