REVIEW OF AIRCRAFT ENGINE MANUAL PW 1000G

- Wow, these books are really beautiful! But I am a novice and they're over my head. Too technical for ME. That's not to say they're not wonderful books. I can tell they are very deep and thorough. Just too advanced for me. So newbie gardeners, be aware of what you're getting.

• My brother and sister-in-law sent me the book, *The Samurai and the Tea*, by Cathy Brueggemann Beil as a gift. It captured my interest so much that I could not put the book down until I knew the ending regarding Michael's final decision. I read the book late into the night after working a busy evening shift in the emergency department. It was awesome!!!!!! Beil is a thoughtful, insightful

writer. Her underlying research is evident. Trust that Beil is nearing the release of another book. Love her writing style and look forward to reading more of her works. (And thanks to my brother and his wife for an inspirational gift that can be read and reread and shared with others.)
