informed decisions concerning what to check out following and can subject you to new writers and genres you may not have taken into consideration before.

## **REVIEW OF BEAD CROCHET JEWELRY AN INSPIRED JOURNEY THROUGH 27 DESIGNS**

- From his hospital bed, Scotland Yard detective Alan Grant is intrigued by a portrait of Richard III, the humpback, the child murderer. Grant is impatient with himself for thinking that the notorious king looks more like a judge than a criminal. So from his bed, and with a little help from American student Brent Carradine, Grant takes on history, and researches the case with a detective's

eye. Richard is innocent, he decides. Bit by bit, like drops of cream in coffee, Tey introduces the facts of the case-- not what people said, or reported long after the fact, but what they did. This is by far one of the best, if not the best, mysteries from that great fount of paperback mysteries, England. This book is the definition of "page-turner." People who know nothing of Richard III, and have never cared really, whether the historical record is correct, will not only be fascinated by this story, but will, after putting it down, be ready to carry the banner of Richard's innocence. One warning: do not begin this book late in the day. You will probably want to read it cover-to-cover, so if you do not start reading early enough, you will end up losing a night's sleep.

- A great political dystopia written in 1924, *We* lays the foundation for *Brave New World* and 1984 and remains shocking and relevant. The story follows a mathematician named D-503 who lives in a bleak totalitarian society. When a comely resistance leader named I-330 seduces D-503, he accidentally discovers his soul, his unique individual identity, and is nearly driven insane by the revelation. The story contains several wonderful philosophical debates about the nature of freedom, art, and government. Written in a highly poetic, sometimes challenging prose style. Not surprisingly, this novel never got published in the USSR and Zamyatin was eventually exiled because of it. That which gives us comfort induces stasis; only things that make us uncomfortable

challenge us to change and grow.
