The Imam and Proof of Islam : Complete Arabic Text with Facing English Translation Princeton University Press

Although Muḥammad had no natural sons who reached the age of maturity, Islamic sources report that he adopted a man named Zayd shortly before receiving his first revelation. This "son of Muḥammad" was the Prophet's heir for the next fifteen or twenty years. He was the first adult male to become a Muslim and the only Muslim apart from Muḥammad whose name is mentioned in the Qur'an. Eventually, Muḥammad would repudiate Zayd as his son, abolish the institution of adoption, and send Zayd to certain death on a battlefield in southern Jordan. Curiously, Zayd has remained a marginal figure in both Islamic and Western scholarship. David S. Powers now attempts to restore Zayd to his rightful position at the center of the narrative of the Prophet Muḥammad and the beginnings of Islam. To do so, he mines traces left behind in commentaries on the Qur'an, in biographical dictionaries, and in historical chronicles, reading these sources against analogues in the Hebrew Bible. Powers demonstrates that in the accounts preserved in these sources, Zayd's character is modeled on those of biblical figures such as Isaac, Ishmael, Joseph, and Uriah the Hittite. This modeling process was deployed by early Muslim storytellers to address two key issues, Powers contends: the bitter conflict over succession to Muḥammad and the key theological doctrine of the finality of prophecy. Both Zayd's death on a battlefield and Muḥammad's repudiation of his adopted son and heir were after-the-fact constructions driven by political and theological imperatives.

In this book, the stories of the prophets have been compiled from 'Al-Bidayah wan-Nihayah' (The Beginning and the End), which is a great work of the famous Muslim exegete and historian Ibn Kathir and has a prominent place in the Islamic literature. The stories of the prophets and all the events in their lives have been supported by the Qur'anic Verses and the Sunnah (traditions) of the Prophet (S). Wherever it was necessary, other sources have also been reported for the sake of historical accounts, but on such places a comparative study has been made to prove the authenticity of the sources. Ibn Kathir has reproduced the views and interpretations of all the great exegetes of the Qur'an of his time. The systemic narratives of the Stories of the Prophets have been written in chronological order which renders a historical style to the book. Allah the Most Exalted says in the Qur'an: "We are relating unto you the most beautiful of stories in that what We have revealed to you from the Qur'an, though before it you were from among those who were not aware of them." (12:3) "We have indeed sent aforesaid Messengers before you, of them there are some whose stories We have related to you, and whose stories We have not related to you..." (40:78) "We relate to you the important news of their story in truth..." (18:13) "And all that We relate to you of these stories of the Messengers, We strengthen with them your heart. Through them there come to you the truth as well as admonition and reminder to all those who believe." (11:120) "There is, indeed, in their stories lessons for people endowed with understanding. It is not any invented tale, but a confirmation of what went before it, and a detailed exposition of all things, and a guide and a mercy to the people who believe." (12:111) "...so relate the stories, perhaps they may reflect." (7:176)

This book presents a thematic collection of hagiographical stories of Sufi saints, often referred to as friends of Gods. Despite the diverse wealth of Sufi works, much of the rich, global and centuries old literature of Sufi warrior-saints, has yet to be translated into English. Examining hagiographical depictions of Sufi mujahids, Neale corrects frequent misunderstandings of the term jihad in relation to Sufi thought and practice. Using Sufi hagiography, treatises, travel narratives and Muslim histories, each chapter comprises the lives of Sufi saints during significant historical events, from the Crusades to the Mongol Invasion and in regions ranging from Islamic Spain to North Africa and India. Using Persian and Arabic sources, this compendium of translated hagiographies gives us a sense of the range, themes and global dissemination of the Sufi literature on war and heroism.

Black Morocco: A History of Slavery, Race, and Islam chronicles the experiences, identity and achievements of enslaved black people in Morocco from the sixteenth century to the beginning of the twentieth century. Chouki El Hamel argues that we cannot rely solely on Islamic ideology as the key to explain social relations and particularly the history of black slavery in the Muslim world, for this viewpoint yields an inaccurate historical record of the people, institutions and social practices of slavery in Northwest Africa. El Hamel focuses on black Moroccans' collective experience beginning with their enslavement to serve as the loyal army of the Sultan Isma'il. By the time the Sultan died in 1727, they had become a political force, making and unmaking rulers well into the nineteenth century. The emphasis on the political history of the black army is augmented by a close examination of the continuity of black Moroccan identity through the musical and cultural practices of the Gnawa.

"Historians have traced the traditions of Islamic scholarship back to late antiquity. Muslim scholars were at work as early as 750 CE/AD, painstakingly copying their commentaries and legal opinions onto scrolls and codices. This venerable tradition embraced the modern printing press relatively late-movable type was adopted in the Middle East only in the early nineteenth century. Islamic scholars, however, initially kept their distance from the new technology, and it was not until the end of the nineteenth century that the first published editions of works of classical religious scholarship began to appear in print. As the culture of print took root, both popular and scholarly understandings of the Islamic tradition shifted. Particular religious works were soon read precisely because they were available in printed, published editions. Other equally erudite works still in scroll and manuscript form, by contrast, languished in the obscurity of manuscript repositories. The people who selected, edited, and published the new print books on and about Islam exerted a huge influence on the resulting literary tradition. These unheralded editors determined, essentially, what came to be understood by the early twentieth century as the classical written "canon" of Islamic thought. Collectively, this relatively small group of editors who brought Islamic literature into print crucially shaped how Muslim intellectuals, the Muslim public, and various Islamist movements understood the Islamic intellectual tradition. In this book Ahmed El Shamsy recounts this sea change, focusing on the Islamic literary culture of Cairo, a hot spot of the infant publishing industry, from the late nineteenth and twentieth centuries. As El Shamsy argues, the aforementioned editors included some of the greatest minds in the Muslim world and shared an ambitious intellectual agenda of revival, reform, and identity formation. This book tells the stories of the most consequential of these editors as well as their relations and intellectual exchanges with the European orientalist who also contributed to the new Islamic print culture"--

Al-Tha'labi was a renowned Qur'anic scholar of the fifth/eleventh century, and his 'Ara'is al-majalis is arguably the finest and most widely consulted example of the Islamic qisas al-anbiya' genre. Drawing on primary Arabic sources, Klar applies modern critical methods in order to explore the nature of al-Tha'labi's 'Ara'is al-majalis within its historical and literary context, and thereby produces a compelling examination of the stories of Noah, Job, Saul and David as portrayed in the key historiographical and folkloric texts of the medieval Islamic period. Via a close analysis of the relevant narratives, the book considers a number of universal aspects of the human condition as they are displayed in these tales, from first a religious, then a familial, and finally a social perspective. Touching upon the benefits and limitations of the application of biblical studies and literary motifs to Islamic materials, the book investigates the possibilities of interpretation raised by a primarily psychoanalytical reading of the tales of the four individuals in question. As such, this text will be of great interest to scholars of the biblical prophets, Qur'anic studies, Islamic historiography, folklore and literary criticism.

Islam's fourth caliph, Ali, can be considered one of the most revered figures in Islamic history. His nearly universal portrayal in Muslim literature as a pious authority obscures centuries of contestation and the eventual rehabilitation of his character. In this book, Nebil Husayn examines the enduring legacy of the nawasib, early Muslims who disliked Ali and his descendants. The nawasib participated in politics and scholarly discussions on religion at least until the ninth century. However, their virtual disappearance in Muslim societies has led many to ignore their existence and the subtle ways in which their views subsequently affected Islamic historiography and theology. By surveying medieval Muslim literature across multiple genres and traditions including the Sunni, Mu'tazili, and Ibadi, Husayn reconstructs the claims and arguments of the nawasib and illuminates the methods that Sunni scholars employed to gradually rehabilitate the image of Ali from a villainous character to a righteous one.

Infamies of the soul ('Uyūb al-nafs) is one of Islam's earliest comprehensive theories for the purification of the soul. In this short guide, the hadith narrator, Shāfi'ī legist, and historian of the early sufis, Imam Abū 'Abd al-Raḥmān al-Sulamī, presents sixty-nine wicked traits and habits of the soul, including anger, laziness, negligence, self-pity, envy, avarice, lying, and pride. Each infamy is described with its common causes and treatments, usually with relevant Prophetic narrations and statements from early Muslim sages. These infamies incline the soul towards evil and self-reproach. Treating them restores its serenity and certainty. With this translation, English readers can now benefit from the simplicity and practicality of Imam al-Sulamī's classic self-help manual that Arabic readers have utilized for the past millennium.

REVIEW OF AL BIDAYA WA L NIHAYA ENGLISH PDF

- This book is probably the best book I have ever read on Java.I have read three other books (not just on Java -- in total). On one of them, the pictures had not been colored in yet.I think I have got the dose right on my medication now. Sorry about my last review ;-) I can be a real goof if I don't get the lithium regularly. When I get out of high school, I want to be an 3LiT3 HaQER D00D. Also, my psychiatrist says I feel paranoid sometimes. Someone is pretending to be me, probably because I am such an interesting and clever D00D. I am secretly related to royalty. - Let me say, I love the way Penelope Williamson writes. Since she doesn't have that many romance novels, and I've already read most of them, I decided to check out her sister's work, and I was not disappointed. Candice Proctor did a tremendous job with a "Night in Eden," (although the title doesn't really fit the book)I was drawn into this novel from the first sentence. That's the sign of a good author.This story was very well written. I loved the first 3/4 of this book. However, there is an unexpected plot twist in the ending that I thought was a bit contrived/far-fetched. The ending was also somewhat abrupt, it was almost as if Ms. Proctor got tired of writing and needed a quick ending.Even though I was disappointed with the ending, I enjoyed this book and will be reading other Candice Proctor books.
