## REVIEW OF MARKET MIND GAMES A

- If you love stories full of political controversy, treachery, love, action, and survival, you will love this book. It is the story of a Great House, House Atreides, forced to move to rule a desert planet where the native people have to wear suits to reclaim the body's moisture, and are shocked to hear of falling water from the sky and the such. A large group of the natives are Fremmen, people who live in the deep desert whose population and culture is unknown to the Imperium. The rival House, House Harkonnen, sets up a betrayal by the Atreides doctor and takes over the planet. The Duke's son and concubine escape to live with the Fremmen in the deep deseert, waiting for a chance to reclaim their planet.I could find absolutely nothing wrong with this book. I am interested to see how the movies do it, since there are so many things in this book that can't be conveyed in images. You must read this book!!!

- Some books should never beget sequels. They are so perfect that any attempt to serialise them will only succeed in making the sequels look bad. Dune is such a book, and the sequels all meet their destinies by indeed looking bad. Some critics have even suggested that Herbert wrote the sequels only to cash in on the popularity of the original. This is uncharitable. Herbert wrote the sequels because he believed that he had important things to say. The problem is that he throws out most of what made the progenitor so good in order to say his Important Things.Nor does it help that those Important Things don't turn out to be too important. Crusade as a cleansing social/moral force; the psychoanalysis of prophesy; the pitfalls of omniscience; all are themes that have been explored more deeply and more cohesively by other writers.Moreover, such themes are out of place in the world of Dune. Dune was effective because it was simple. The Fremmen commanded our interest because their outlook on life was as stark as their environment. Jessica commanded our sympathy because she chose her loyalty as consort and mother over her instilled training as social engineer. Paul commanded our respect because he continually overcame adversity, displayed courageous resourcefulness and showed himself in every way his father's son. These are all characteristics with which we can identify because they satisfy our yearning for love, honour and justice. And in Dune, Herbert successfully elevated them from the commonplace to the heroic by keeping them free of unnecessary artifice.In Messiah, Herbert forgets this principle and overindulges in cleverness. Every character has inscrutable agendas, unfathomable layers, infinite subtlety. Such properties must be used sparingly. When they are slathered on with a trowel, as they are here, they only succeed in turning the characters into caricatures of themselves. I was nauseous after the umpteenth description of such and such a verbal blade unerringly penetrating to such and such a depth because it was precisely engineered with such and such a sub-harmonic and delivered with exactly such and such a sneer. Ohh Puhlease!This is an unattractive work and the sequels that follow only get worse. But when a writer composes a masterpiece as fine as Dune, I suppose he can be forgiven his later excesses.
