REVIEW OF HITACHI TAGMASTORE MANUAL

- Stacey Julian has created a wonderful, inspiring book for anyone who wants to preserve and remember special thoughts, events, people, foods, trends and more.... I love this book!!!! I think it is under-priced! You will not regret purchasing this book. Thank you Stacy for sharing your special gift and taking the time to publish this wonderful book.

- You are going to understand it or you are not going to understand it. But read it. Slowly but surely even those without science or math background the pieces start to fall together. Probably will take two or three readings but it is worth it.
