REVIEW OF CHAPTER 12 FORCES AND MOTION WORDWISE ANSWER KEY PDF

- Fletcher Pratt was a master at holding your interest. His chapter headings had a flavor of their own. I have two original paper backs and I treasure them.

- Though not an easy read, The Courage to Be is definitely worth the struggle. I'll admit that I originally read this book as required for a class, but I have to say that it was one of the best experiences of my academic career. I am an avid reader, but was glad to have my professor's guidance and class discussions to help me see and understand things I might not have otherwise. I don't think Tillich has to be lumped into any kind of category in order to be worth reading-- his ideas transcend any one category. After reading this book, I knew what I had always felt about God and religion but never had the words for. The Courage to Be made me the Tillich fan I am today, and though it can be frustrating at times, I wouldn't trade my copy for anything!
