## **REVIEW OF BENCHMARK ENGLISH**

### **EDITION**

- Quite Simply, one of the finest books about professional soldiers ever published. This is the story of the US Army from WW I to the beginnings of Vietnam. It is also the story of one true American hero, "Sad Sam" Damon, the former Night Clerk and Nebraska farm boy who receives the Medal of Honor in France in WW I and goes on to retire a general officer in the early stages of America's involvement in Vietnam. Sad Sam is a Mustang who learned early to take care of the people he was responsible for. In the process, he also earns a battlefield commission. In the interwar years, he sweats out numerous moves, terrible pay and

slow promotions. But, he never loses his way. His foil is the ambitious, scheming West Pointer, Courtney Schuyler Massengale. Courtney Massengale is the quintessential "staff puke" who doesn't like to lead troops, doesn't like the field and doesn't like to get dirty. Like our vaunted Commander in Chief, he also doesn't like to tell the truth, either. As a result, he manages to manipulate his way to the top of the officer corps, where his brand of leadership (or lack thereof) can do the most damage. I read *Once and Eagle* when it was first published (I was 14 at the time) and it made me realize that I wanted to be an officer just like "Sad Sam." I even tried to live my life by the code

established with his dying words to the son of his dead friend Ben Krisler. He said to Lt Col Joey Krisler, "if you ever have to choose between being a better person and a better soldier, always try to be the better person." It is reassuring to see that the Army and Marine Corps think so much of this book that they have influenced bringing it back into print. It should be the required leadership primer for all second lieutenants and ensigns. I hope every potential Courtney Massengale at West Point, USAFA, USCGA and USNA see themselves in its pages and mend their ways before it's too late (for them, their service and their troops). This is a book about honor, integrity, loyalty and

service. These are noble words for concepts which have been erased from the popular lexicon of everyday American life. While the military has once again re-discovered this book, I believe it should be introduced as required reading at the high school level, where it might have a real impact. As a caveat however, I offer the quote from the flyleaf where Myrer found an eagle, stricken with a dart, said when he saw the fashion of the shaft, with our own feathers, not by others' hands are we now smitten." Aeschylus This is a powerful warning to those who would do right by America and her armed forces. There are numerous enemies operating from within. This book

gives us a wonderful hero but, it also warns us to look over our shoulders as well. The resurgence of this book should also serve as a reminder to the "perfumed princes" in the officer corps that their oath is to the Constitution, that their duty is to the country and that honor demands that they put the nation above personal consideration. The men and women of the armed forces, who are sworn to obey the orders of the officers appointed over them, deserve no less. The nation deserves no less and Anton Myrer's novel from 1968 reminds us of that even today.

- First off, let me say I loved this book. I thought that Meyers wove an intricate plot

that fully engrossed me. I could not put the novel down and often stayed up late in the evening unable to pause until I finished just one more chapter. I picked up this book because I had seen it on the Chief of Staff of the Army's reading list for Army officers. I am a professional officer and wanted to read this book that was recommended by several senior, successful officers. They all spoke of how the main character was someone they wished all military officers would emulate and his arch nemesis someone to ostracize and avoid. So I came at this book with some preconceived notions. My point of contention with many of the reviews both on the book cover and from my superiors and peers was the hero worship aimed at the character of Sam Damon. He is a wonderfully constructed hero and Myers has done a wonderful job but, as in all great literature, he is flawed, sometimes painfully so, and his flaws in the end are his undoing. This concerns me because some of the traits I know senior officers in the military want us to emulate are those same tragic flaws. Sam Damon sees his service to country above all else. He sacrifices his family to his duty. This is what I see as a major element of his tragic flaw. At times he better serves the soldiers under to the detriment of his own family, in effect, subjugating the needs of his family to

those of the Army. Too many senior officers in today's military expect this sacrifice from their subordinates and that is why this book is so popular amongst senior military officials. They all wish they had a flock of Sam Damons working under them for they do not see his tragic flaw as such. They do not want balanced well rounded officers with lives outside the military. Instead they want officers willing to sacrifice everything in their life for the Army. As I see it, Sam lacked the ability to balance his life. He gave everything to the

military and when it was done he had nothing and was easily pulled back in to his doom because he had not invested some of his time in his family, friends, community or religion. A wonderful story and cautionary tale and I would recommend it to anyone. To military personnel who are reading it based on advice from others, come to the table with an open mind and understand that Sam has many wonderful traits to emulate. It is up to you to intelligently decide which traits are noble and which are flaws.
