REVIEW OF CLINICAL OF CONTACT LENSES

• I hadn't read 'Dune' cover to cover in more than twenty years. I must say that it holds up. I couldn't put the thing down. Yes, there are problems. An editor might have trimmed some of the 'terrible purposes' and 'plans within plans within plans' and other repetitions, and sometimes the mystical-messianic stuff sticks in the throat. But few books rival Herbert's for sheer inventiveness and conviction. Not to mention that he seems to think that readers are intelligent people who like books that make them pay attention. Is it the Greatest Science Fiction Novel Ever? No. (That title goes to 'The Left Hand of Darkness'). But it is a classic. Anyone who has an interest in serious sci-fi needs

to read it.

- Very good book, but if you don't already know, it is all just one long anti-Jewish, pro-Arab commentary. I don't remember if Herbert acknowledged this or not; I could be wrong, but I think he did. We are meant to see the Fremen as Arabs, the Harkonnen as the "evil Jews" (they came to take

the land of the Fremen away from them; they only care about profit; Baron Harkonnen drinks blood; etc.), the spice is very obviously oil, the Emperor is the USA. It is a testament to the book's worth that this less-than-savory inspiration for it nevertheless does not detract from Dune's overall artistic merit.
