iPod and iTunes For Dummies John Wiley & Sons

Discover the pros of probiotics Probiotics are beneficial, live microorganisms (in most cases, bacteria) that are similar to those found naturally in the human intestine. Also known as "friendly" or "good" bacteria, probiotics are the cornerstone of any successful health program because they restore a healthy balance between friendly and bad bacteria in the intestinal tract, a balance that is critical for the health of the entire body. Probiotics are associated with treating everything from IBS to certain forms of cancer, allergies, eczema, and even the effects of aging. *Probiotics For Dummies* reveals how taking the right probiotics—in the form of food and supplements— as part of a total health program benefits one's overall health, as well as improving specific conditions. This hands-on, essential guide features 20 probiotic recipes and gives you a step-by-step plan for infusing probiotics into your diet to improve the health of the GI tract, alleviate allergies and asthma, restore reproductive and urinary tracts, bolster the immune system against disease, enhance weight loss, and more. Advice on how to ingest the right probiotics 20 probiotic recipes from breakfast to dessert Information on naturally occurring probiotic compounds as well as the effectiveness of supplements *Probiotics For Dummies* gives you everything you need to make informed decisions about adding probiotics to your daily diet.

REVIEW OF IPHONE 4S FOR DUMMIES FOR DUMMIES LIFESTYLES PAPERBACK

- The Time War series is only worth reading up to the fourth book, but if you're going to read only one then let it be this one. The time travel logistics in this book taste better than any other I've read. Also includes enough violence to slake the thirst of the average action fan. One of the best sci-fi pulp fiction books I've ever found (consumed?). This book would make a fantastic movie. -Clyde Erwin
- The stories themselves are, of course, beyond reproach. And the value of all four novels and all the short stories for under a buck is ridiculous. However, the number of typos here is outrageous, and it's particularly off-putting here because of the exquisite craft of the writing. There were several instances in the first few stories I read where a series of typos changed the meaning of the story, causing me to go back and re-read. The exact kind of irritating experience I don't want when I'm reading purely for pleasure. Why can't someone simply proofread and correct the Kindle version before it's published? I am sure they've sold a thousand Kindle versions of this book. If Amazon charged \$1.49 instead of \$.99, they could pay some smarty-pants grad student \$500 to proofread and I bet they'd have lost very few sales. Instead, I find myself once again reluctant to purchase any book written before the Kindle era.
