REVIEW OF HANDBOOK FOR PULP AND PAPER TECHNOLOGIST S

- As a young adult librarian, I try to read as many books for that audience as I can. I happened across "So You Want to Be a Wizard" and decided to read it. Being a great fan of fantasy, I am very familiar with the typical epic tale that takes thousands of pages to reach its conclusion. This novel has many of those great epic characteristics (references to creation/creator(s), the choosing of ordinary-seeming young people to be saviors of the universe, the battle

between good and evil, etc.), yet manages to tell the complete story in less than 400 pages. The novel is about two junior high students, Nita and Kit, and what befalls them when they attempt to use their new-found wizard abilities to locate Nita's stolen pen. In the process they meet a white hole, who they nickname Fred (a white hole being the opposite of a black hole - a black hole absorbs things; a white hole emits things). It turns out that Nita's pen is in an alternate New York City, where cars, elevators, door locks, and other mechanical objects are all self-aware - and vicious. The landmarks and buildings of New York City are very integral to the setting of this

novel. Natives of the city would really appreciate this. Despite the inclusion of a universe-threatening battle between good and evil, there is a lot of humor in this book. Fred's difficulties in adapting to the planet earth were particularly amusing. In my opinion this is an excellent fantasy novel. I came to care for the characters very much. Not many novels make me both laugh and cry, but this one did.

- I love Diane's series, and I have read every one so far! I can't wait till the 6th one comes out! This series starts out with misfortunate Nita Callahan, who is

running from bullies. When she runs into the library to hide, she finds an interesting book in the childrens section. She thought she had read every book, but this book was different. It was called So You Want To Be A Wizard. Now she thought, a joke, but it wasn't. She took the wizards oath, and while looking for the Senior Wizards near her, she meets up with Kit Rodriguiz, a one year younger than her boy, who has the same bully problems as Nita. They meet up with a White Hole named Fred, and go against the Lone One. This book and the series is awesome!
