So why wait? Start discovering our PDF collection today and download Developmental Science Journal great read. We guarantee you will not regret it!

Thanks for picking our platform for your PDF downloads. We expect offering you with exceptional service and diverse alternatives for several years ahead.

## **REVIEW OF DEVELOPMENTAL SCIENCE JOURNAL**

- This was a nice try but a little off the mark. It reminded me of those little commercials in the 50s on how to be popular. Remember those? So as a woman, may I counter the ideas in the book and try to help some of you poor slob out by giving you the REAL tips to getting "laid"? 1) DON'T call it "getting laid". And if you bought this book, hide it. 2) Take a shower and BRUSH YOUR

TEETH (if you really want to turn her on wear cologne...smells are VERY important) 3) Did you ever think about what's in it for her? How are YOU going to make the potential sex worth her while? If you don't know how to turn her on, how in the world are you going to get her off? Start out by reading "She Comes First." You can mention that that is one of your favorite books while seducing her...it might help. 4) Instead of trying to focus on "looking in her eyes" a certain way or silly things like that...try REALLY looking at her. What is sexy about her? We know you guys will sleep with anything, but stop for a minute and ask yourself why you want to sleep with this one? You might become GENUINELY attracted to specific things about her and when a woman feels that kind of attraction, she is more open to having sex. 5) Don't make promises you're not going to keep. Be honest. We really do like that better. The sex isn't better when you trick a woman. 6) for a woman you are dating or seeing several times, get her little things to get her in the mood...like an erotic book. Try Bedtime Stories for Women by Nancy Madore. That's a good one. You could even read it to her. 7) ASK HER to have sex with you. 8) If at first you don't succeed, try and try again. Don't be such babies. It is not the end of the world to be turned down. Good luck!

- There is really not that much to picking up girls. If you read this book and do what it says you will get laid. Much of it is true such as not wasting your time with girls that are in a group and the girls that are out there just to boast their ego and spend your hard earned cash. I think this book could use more on being discrete when screwing girls. Even if you can get some girl to

come home with you word may get out that you are just out for sex. That's not a good thing. Even if someone gives you eye contact and everything, you may want to think twice before proceeding, you don't know who they know and who they may tell even if you have sex with them.
