REVIEW OF VENTURE CAPITAL HOW NOT TO GET SCREWED

- Through a succession of generations and characters Mafouz makes a strong case for humanity's penchant for forgetting the lessons learned by historical perspective. In the beginning, an

eldest son is cast from his father's house, and loses his inheritance, which goes to a son by a different mother. Like the serpent in the Garden of Eden, this next inheriting son is tempted, and also falls prey to his human failings. The two cast-out sons establish residence in the alley outside the opulent security of their father's house. They spend their lives waiting to be forgiven, for their "ancestor" (father) to call them and their families back into the fold. In this way, the sons and the son's sons live the life of the alley, a microcosm of the misery of mankind, where the strong feed on the weak and violence dominates. The story becomes an allegory for all of mankind seeking salvation and forgiveness, a return to the source from which we came. Some of the descendants claim to have visions of their "ancestor" (God), changing their lives completely, spreading a doctrine of love and renewal; as well, each generation in the alley produces a "prophet". Life becomes so desperate that the people willingly change their ways and temporary peace settles on the alley. In each case, over time, all is forgotten and the people fall into despair again. And so the cycle repeats. The reader is left to look inward at his own role, his own small history, whether to choose the light or the darkness.

- this book was so detailed and gave every perspective. it described the lives of people living such a long time ago and in an unrelated culture, yet you can understand every emotion they go through.
