Thank you for selecting our platform for your PDF downloads. We

expect offering you with outstanding service and diverse alternatives for several years to find.

REVIEW OF MATHEMATICS PAPER 1 JUNE GRADE 12 MEMORANDUM

- In my review of his reading of the Fellowship of the Ring, I gave poor old Rob Inglis a bit of a drubbing (rated three stars). And, in my review of the second set, I am going to give him a bit of a break. My general comments about Inglis stand. He is a bit one paced. Because of the nature of his voice he is limited as to the range of voices he can adopt. And he has a tendency to read in an arch, almost pretentious manner which does the book and many of the characters something of a disservice. I think that because of his own age, Inglis has a tendency to make his characters sound older than they should. The best example of this is Aragorn and it was my wife who made this point first. I have always seen him as a young, vigorous man - early thirties. This is how Peter Jackson also saw him if his casting is any judge. But Inglis' rendering suggests a middle-aged man - in his mid fifties. However, my recommendation, then, as now, is to buy this version as it is the only extant unabridged version of Lord of the Rings that is available. Having said that, he seems appreciably better in his rendering of the characters in this volume of the trilogy - perhaps he grew into the reading as he went along - this often happens. There are certain characters which he has "nailed" - among them Tree Beard and most importantly of all, Gollum. Inglis' rendering of Gollum is near letter-perfect. For all my quibbles, I was completely addicted to this reading. I drive

about 30 minutes to and from work each day - and have a 2 hour drive to and from our farm on weekends. If I ever found myself in the car at the end of a set of CDs, with a long drive ahead of me, I almost went stir crazy. I should also say that my brother, also a LoTR aficionado does not have the same problem with Inglis - he even likes listening to the songs! - which I still find un-listenable.

- I can't imagine someone getting the first two audiobooks and NOT wanting this last book, too. The reader is up to his usual high quality. It ships with 16 CDs -- but only 12 CDs are associated with this third book. The last 4 CDs are JRRT notes, summaries, background material, etc that only the most diehard fan would appreciate.
