Keep in mind, checking out testimonials can aid you make notified choices regarding what to read following and can expose you to brand-new writers and styles you might not have actually thought about previously.

REVIEW OF CHAPTER 10 1 10 2 READING GUIDE ANSWER KEY ASDAFD

- Nearly half of the book that I have is made up of appendices, indicating the degree to which DuBois thoroughly, painstakingly researched this essential aspect of American history. While written by an African-American, it is all the more powerful because of the way DuBois lets the evidence speak for itself. There is no ranting or raving, not even much editorializing. Its calm, even, measured tone is remarkable, hypnotic. And the most powerful aspect of his study may be in the reader's natural tendency to apply its insights into American government as it relates to current unresolved issues, say global warming

for example, or our political and/or military involvement outside our boundaries. On slavery, we were very slow to react to the issue, and did so with weak-hearted half-measures, until the national calmity of the Civil War resolved the issue for once and for all -- but at what a risk, and what a cost! In the end, as Dubois says, it took a "fortuitous commingling of moral, political, and economic motives" to end the slave trade and slavery itself once and for all. I was so disappointed when I reached the appendices and realized that the book was over! I found it a

gripping read that has fundamentally changed the way I look at America and its governmental processes.

- This was a good book with a lot of valuable information but was missing the one thing I was looking for...how to buy a new home when it's contingent on your existing home selling. I've visited many new home communities that didn't want to give me the time of day when they found out I had to sell my existing house in order to purchase a new home. I had hoped the authors would have discussed the options available for the many people in my situation.
