## REVIEW OF DIABETES NO MORE

- Published in 1908, The Circular Staircase won't be what you expect: a hyperventilated Edwardian piece, loaded with implausible plot and purple prose. Our heroine, the middle-aged Rachel Innes, proves caustic, intelligent and quite humorous from the very start. Her well-meaning quarrels with her foolish maid Liddy provide great comic relief, and you won't find Miss Innes making the sort of stupid exercises in derring-do that get modern-day heroines nearly killed in today's mystery novels. Nor will you find Miss Innes melting into Victorian hysterics or melodrama. She's not afraid to hide evidence and thwart the police in her quest for the truth about the murder at her rented summer home. Despite being more than a century old, the novel doesn't feel dated at all, except for the attitudes to other races. Is the novel perfect? No. As other writers have pointed out, there are some plot slip-ups. And Miss Innes' attitude toward Thomas the butler, an African-American, while better than average for the day, will strike modern readers as appalling. That said, you'll thoroughly enjoy The Circular Staircase.

- This book has an inspirational meditation for every day of the year. I have had mine for 6 years and I purchased 4 for some friends and they love it. It gives me things to think about for the health of my mind and soul on a daily basis. I love this daily meditation book.
