REVIEW OF MICROBIOLOGY LABORATORY THEORY AND APPLICATION 3RD EDITION

- Jill Eragon A boy named Eragon found a dragon's egg. He tries to sell it because he needs the money. He lives with his uncle and nephew. When the egg hatches he has doesn't know what to do. He travels after his uncle dies. He stated to travel with a storyteller named Brom. Him and Brom go to see a friend and then they leave. After they leave Brom get kill and Eragon meets Murtagh. They travel to Varden even though Murtagh doesn't want to go. When they get there none of the dwarfs like Eragon

but all of the humans love him. An army of Urgals started to attack the Varden. Eragon and his dragon start to fight and Shade shows up. Eragon wins. Eragon is a young farm boy that lives with his uncle and his uncle's son. He becomes brave and responsible. He starts to trust more people and makes new friends. He gets a better view on life. He starts to get stronger in body and mind. I think the book should tell a little bit more at the end so people know what will happen in the next book. Eragon should have more detail to him. Brom should have a better-described background. The Elfs need a little more info on them. Murtagh need a more info about what happen to him as a kid.

- The story of Eragon is a definite read. It begins with a normal farmer boy that

finds a stone in The Spine. He finds it unusual that a perfect smooth stone should happen to fall into his possession. When he realizes that this stone will lead him into the fantasy world there is no turning back. I enjoyed this book so much because magic is such a great

theme. As people we really don't know if there is a world of magic and it is fun to think of all the impossible actions that could happen. The events come in an assiduous matter, which made me want to keep turning the page.
