REVIEW OF CARRIER 30HR 100 CHILLER MANUAL

- I loved it. I've read dozens of books on Brazil and this was one of the most enjoyable. I learned much about Brazil through Rambali's story. I recommend it.

- Reading this book is like stepping into the family of a person with Borderline Personality Disorder. It is not always a pleasant place to visit, it can be very painful. I would assume that most people who would choose this book do so because of some personal connection to BPD. To watch Rachel and her family struggle through her illness and recovery can touch 'almost' too close to home. But, you find yourself hoping for them all. Rachel is a storyteller, and this book is written in a beautiful and very readable style. The clinical information that is presented as part of the story is palatable because it is so well ingrained into the actual story! Someday soon I am going to take the time to write a long letter to Rachel Reiland, and to Randi Kreger ("Stop Walking on Eggshells.") These two women have put a tremendous amount of time and energy into giving us all a better understanding of Borderline Personality Disorder. If you've taken the time to read this review, then I strongly suggest you read Ms Reiland's book. I hope that you find it to impact your own life in the strong, positive way that it impacted mine.
