Internationally renowned and award-winning historian Dr. Robert Jan van Pelt's *The Evidence Room* is a chilling exploration of the role architecture played in constructing Auschwitz - arguably the Nazis' most horrifying facility. *The Evidence Room* is both a companion piece to, and an elaboration of, an exhibit at the 2016 Venice Architecture Biennale, based on van Pelt's authoritative testimony against Holocaust denial in a 2000 libel suit argued before the Royal Courts of Justice in London.

An American Understanding W. W. Norton & Company

"The award-winning author of *The Eichmann Trial and Denial: Holocaust History on Trial* gives us a penetrating and provocative analysis of the hate that will not die, focusing on its current, virulent incarnations on both the political right and left, and on what can be done about it. When newsreels depicting the depredations of the Holocaust were shown in movie theaters to a horrified American public immediately after World War II, it was

believed that the antisemitism that was part of the fabric of American culture in the 1920s and 1930s was finally going to be laid to rest. In the ensuing decades, Gregory Peck received an Academy Award for playing a journalist who passed as a Jew to blow the lid off genteel Jew hatred, clauses restricting where Jews could live were declared illegal, the KKK was pretty much litigated out of existence, and Joe Lieberman came within five electoral votes of becoming America's first Jewish vice president. And then the unthinkable began to happen. Over the last decade, there has been a noticeable uptick in antisemitic rhetoric and incidents by left-wing groups targeting Jewish students and Jewish organizations on American college campuses. Jews in countries throughout Europe have been attacked by terrorists. And the re-emergence of the white nationalist movement in America, complete with Nazi slogans and imagery, has brought to mind the fascist displays of the 1930s. Where is all this hatred coming from? Is there any significant difference between left-wing and right-wing antisemitism? What role has the anti-Zionist movement played? And what can be done to combat this latest manifestation of an ancient hatred? In a series of letters to an imagined college student and imagined colleague, both of whom are perplexed by this resurgence, Deborah Lipstadt gives us her own superbly reasoned, brilliantly argued, and sure-to-be-controversial responses to these troubling questions"--

Which generals were most influential in World War II? Did Winston Churchill really see himself as culturally "half American"? What really caused the break between Harry S. Truman and Dwight Eisenhower? In *Soldiers and Statesmen*, John S. D. Eisenhower answers these questions and more, offering his personal reflections on great leaders of our time. The son of President Dwight D. Eisenhower, John S. D. Eisenhower possesses an expert perspective on prominent political and military leaders, giving readers a matchless view on relationships between powerful figures and the president. Eisenhower also had a long military career, coincidentally beginning with his graduation from West Point on D-Day. His unique position as a young Army staff officer and close relationship with his father gave him insider's access to leaders such as Winston Churchill, Harry Truman, George Patton, Douglas MacArthur, Omar Bradley, John Foster Dulles, Mark Clark, Terry Allen, and Matthew Ridgway. He combines personal insight with the specialized knowledge of a veteran soldier and accomplished historian to communicate exclusive perspectives on U. S. foreign relations and leadership. Eisenhower's observations of various wartime leaders began in June 1944, just after the Allied landings in Normandy. On orders from General George C. Marshall, Army chief of staff, Eisenhower

sailed from New York aboard the British-liner-turned-American-troopship *Queen Mary* to join his father, Supreme Commander of the Allied Expeditionary Force, in London, where he stayed for over two weeks. A year later, at the end of the war, Eisenhower accompanied his father as a temporary aide on trips where Ike's former associates were present. In the mid-1950s, Eisenhower's perspective was broadened by his service in a room next to the White House Oval Office during his father's tenure as president. On the light side, Eisenhower has added a special appendix called "Home Movies," in which he reveals amusing and often irreverent vignettes from his life in military service. Eisenhower gives readers both a taste of history from the inside and a rich and relatable memoir filled with compelling remembrances.

"A lucid, muscular, and often sly reflection" on the worth and purpose of historical scholarship by the award-winning author of *The Third Reich Trilogy* (Kirkus). In this volume, the renowned historian Richard J. Evans offers a fervent and deeply insightful defense of his craft and its importance to civilization. At a time when fact and historical truth are under unprecedented assault, Evans shows us why history is necessary. Taking us into the historians' workshop, he offers a firsthand look at how good history gets written. In staunch opposition to the wilder claims of postmodern historians, Evans thoroughly dismantles the notion that a realistic grasp of history is impossible to attain. He then

goes on to explain the deadly political dangers of losing a historical perspective on the way we live our lives. In the tradition of E.H. Carr's *What Is History?* and G.R. Elton's *The Practice of History*, Evans' *In Defense of History* delivers "a model of lucid and intelligent historiographical analysis" (The Guardian, UK).

Three million Polish Jews were murdered in the Holocaust, wiping out nearly 98 percent of the Jewish population who had lived and thrived there for generations. *Night Without End* tells the stories of their resistance, suffering, and death in unflinching, horrific detail. Based on meticulous research from across Poland, it concludes that those who were responsible for so many deaths included a not insignificant number of Polish villagers and townspeople who aided the Germans in locating and slaughtering Jews. When these findings were first published in a Polish edition in 2018, a storm of protest and lawsuits erupted from holocaust deniers and from people who claimed the research was falsified and smeared the national character of the Polish people. *Night Without End*, translated and published for the first time in English in association with Yad Vashem, presents the critical facts,

significant findings, and the unmistakable evidence of Polish collaboration in the genocide of Jews.

In ruling against the controversial historian David Irving in his libel suit against the American historian Deborah Lipstadt, last April 2000, the High Court in London labeled him a falsifier of history. No objective historian, declared the judge, would manipulate the documentary record in the way that Irving did. Richard J. Evans, a Cambridge historian and the chief advisor for the defense, uses this pivotal trial as a lens for exploring a range of difficult questions about the nature of the historian's enterprise. For instance, don't all historians in the end bring a subjective agenda to bear on their reading of the evidence? Is it possible that Irving lost his case not because of his biased history but because his agenda was unacceptable? The central issue in the trial -- as for Evans in this book -- was not the past itself, but the way in which historians study the past. In a series of short, sharp chapters, Richard Evans sets David Irving's methods alongside the historical record in order to illuminate the difference between responsible and irresponsible history. The result is a cogent and deeply informed study in the nature of historical interpretation.

Now a major motion picture starring Rachel Weisz, Timothy Spall and Tom Wilkinson. "A compelling book: memoir and courtroom drama, a work of historical and legal import. " -- Jewish Week Deborah Lipstadt, author of the groundbreaking *Denying the Holocaust*, chronicles her six-year legal battle with controversial British World War II historian David Irving that culminated in a sensational 2000 trial in London In her acclaimed 1993 book *Denying the Holocaust*, Deborah Lipstadt called putative World War II historian David Irving "one of the most dangerous spokespersons for Holocaust denial", a conclusion that she reached by examining his cunning manipulations of evidence, partisanship to Hitler, persistent exoneration of the Third Reich, and his confirmed celebrity among swelling ranks of anti-Semitic organizations internationally. In 1994, Irving filed a libel lawsuit, not in the U.S. courtroom—where the onus of proof lies on the plaintiff, but in the UK—where the onus of proof lies on the defendant. At stake were not only the reputations of two historians, but the record of history itself. The four-month trial took place in London in 2000 and drew international attention. With the help of a first-rate team of solicitors and historians and the support of her UK publisher, Penguin, Lipstadt won, her victory proclaimed on the front page of major newspapers around the world. Part history, part real life courtroom drama, *Denial* is Lipstadt's riveting, blow-by-blow account of the trial that tested the standards of historical and judicial truths and resulted in a formal denunciation of the infamous Holocaust denier. Originally published as *History on Trial*.

The denial of the Holocaust has no more credibility than the assertion that the earth is flat. Yet there are those who insist that the death of six million Jews in Nazi concentration camps is nothing but a hoax perpetrated by a powerful Zionist conspiracy. Sixty years ago, such notions were the province of pseudohistorians who argued that Hitler never meant to kill the Jews, and that only a few hundred thousand died in the camps from disease; they also argued that the Allied bombings of Dresden and other cities were worse than any Nazi offense, and that the Germans were the “true victims” of World War II. For years, those who made such claims were dismissed as harmless cranks operating on the lunatic fringe. But as time goes on, they have begun to gain a hearing in respectable arenas, and now, in the first full-scale history of Holocaust denial, Deborah Lipstadt shows how—despite tens of thousands of living witnesses and vast amounts of documentary evidence—this irrational idea not only has continued to gain adherents but has become an international movement, with organized chapters, “independent” research centers, and official publications that promote a “revisionist” view of recent history. Lipstadt shows how Holocaust denial thrives in the current atmosphere of value-relativism, and argues that this chilling attack on the factual record not only threatens Jews but undermines the very tenets of objective scholarship that support our faith in historical knowledge. Thus the movement has an unsuspected power to dramatically alter the way that truth and meaning are transmitted from one generation to another.

A Memoir of Life with Dwight D. Eisenhower, 1961-1969 VNR AG

From January to April 2000 historian David Irving brought a high-profile libel case against Penguin Books and Deborah Lipstadt in the British High Court, charging that Lipstadt’s book, *Denying the Holocaust* (1993), falsely labeled him a Holocaust denier. The question about the evidence for Auschwitz as a death camp played a central role in these proceedings. Irving had based his alleged denial of the Holocaust in part on a 1988 report by an American execution specialist, Fred Leuchter, which claimed that there was no evidence for homicidal gas chambers in Auschwitz. In connection with their defense, Penguin and Lipstadt engaged architectural historian Robert Jan van Pelt to present evidence for our knowledge that Auschwitz had been an extermination camp where up to one million Jews were killed, mainly in gas chambers. Employing painstaking historical scholarship, van Pelt prepared and submitted an exhaustive forensic report that he successfully defended in cross-examination in court.

Holocaust History on Trial The Palingenesis Project (Wermod and Wermod Publishing Group)

Immediately after World War II, there was little discussion of the Holocaust, but today the word has grown into a potent political and moral symbol, recognized by all. In *Holocaust: An American Understanding*, renowned historian Deborah E. Lipstadt explores this striking evolution in Holocaust consciousness, revealing how a broad array of Americans—from students in middle schools to presidents of the United States—tried to make sense of this inexplicable disaster, and how they came to use the Holocaust as a lens to interpret their own history. Lipstadt weaves a powerful

narrative that touches on events as varied as the civil rights movement, Vietnam, Stonewall, and the women's movement, as well as controversies over Bitburg, the Rwandan genocide, and the bombing of Kosovo. Drawing upon extensive research on politics, popular culture, student protests, religious debates and various strains of Zionist ideologies, Lipstadt traces how the Holocaust became integral to the fabric of American life. Even popular culture, including such films as *Dr. Strangelove* and such books as John Hershey's *The Wall*, was influenced by and in turn influenced thinking about the Holocaust. Equally important, the book shows how Americans used the Holocaust to make sense of what was happening in the United States. Many Americans saw the civil rights movement in light of Nazi oppression, for example, while others feared that American soldiers in Vietnam were destroying a people identified by the government as the enemy. Lipstadt demonstrates that the Holocaust became not just a tragedy to be understood but also a tool for interpreting America and its place in the world. Ultimately *Holocaust: An American Understanding* tells us as much about America in the years since the end of World War II as it does about the Holocaust itself.

My Day in Court with a Holocaust Denier Schocken

A chronicle of the author's five-year legal battle with writer David Irving, a prolific supporter of Holocaust denial, describes how the author and a team of experts defended against Irving's libel suit while exposing his distortions of history.

Denial Ecco

In her acclaimed 1993 book *Denying the Holocaust*, Deborah Lipstadt called David Irving, a prolific writer of books on World

War II, "one of the most dangerous spokespersons for Holocaust denial." The following year, after Lipstadt's book was published in the United Kingdom, Irving filed a libel suit against Lipstadt and her publisher. She prepared her defense with the help of a first-rate team of solicitors, historians, and experts, and a dramatic trial unfolded. *Denial*, previously published as *History on Trial*, is Lipstadt's riveting, blow-by-blow account of this singular legal battle, which resulted in a formal denunciation of a Holocaust denier that crippled the movement for years to come. Lipstadt's victory was proclaimed on the front page of major newspapers around the world, such as *The Times* (UK), which declared that "history has had its day in court and scored a crushing victory."

- I can't seem to put this book down! I have looked at the beautiful pictures over and over. It has inspired me to get off the couch and try some of these although I am not a real seasoned cake decorator. The witch flying around the moon is to die for and I will for sure be trying it soon. I have made characters with clay and the directions in this book make it look quite similar. Can't wait to give it a try. In my opinion this book gets five stars just for the pictures. The only thing I wish the author would have added....a close up of some of the faces that are painted, but other than that I highly recommend it.
