There is growing interest in the use of Neuro Linguistic Programming (NLP) as a Qualitative Market Research technique. NLP was previously used in psychology to understand how people think and react, and as a tool in self-development, interpersonal skills and business, looking at how our brains think and experience the world. Qualitative Market research experts now see that using NLP can help the researchers understand the human brain and, armed with this power, they can find out the truth from interviewees. The Hidden Art of Interviewing People shows how, by using NLP and related techniques in interviews, the market researcher can see beyond the obvious to the truth.

Feasibility Report for Navigation Improvements, Unalaska Springer Nature

This successful book, first published in 1980 and now in its fourth edition, provides an authoritative guide for busy practitioners trying to keep pace with current trends in small animal orthopaedic surgery. In this new edition Hamish Denny and Steven Butterworth have retained the same practical approach but have completely rewritten and updated the book to provide a comprehensive review of orthopaedic and spinal conditions in the dog and cat. The illustrations have also undergone a major overhaul and the many line drawings are now combined with photographs and radiographs to clarify diagnostic and surgical techniques. Although the size of the book has increased, its regional approach to problems still enables the reader to use it as a rapid reference guide. It will prove an invaluable source of information for veterinary practitioners diagnosing and treating orthopaedic and spinal problems, while postgraduate students taking further qualifications in orthopaedics will find a sound basis for their studies and further reading provided here.

REVIEW OF CATERPILLAR 3516C HD OPERATION AND MAINTENANCE

- This book was a fairly easy read and explains the way Rumsfeld has chosen to lead and take chances throughout his career. He's the youngest man to be elected to the House of Representatives and the only man to serve as Secretary of Defense twice. Once you read this book you'll understand how he's achieved success in government and as the CEO of major corporations. It's worth the price of admission.

- This book describes the fears of many Americans. C.W.2 is extremely informative. However I would rather read a more action packed novel such as the "Turner Diaries" or "Hunter".
