REVIEW OF DIGITAL SYSTEMS ALAN

- Baumgartner fed the cats on restaurant leftovers. Under the circumstances he had to patronize the cafes. It was believed that in India Hugo Baumgartner could begin a new life and thus his family had arranged for him to go there. It was felt that India would be safe because it was a colony of their neighbor, Britain. He departed for for the East from Venice. His mother could not be compelled to go with him. It had seemed like bedlam when he walked on what he assumed was British soil. He told Lotte years later that on his first day he ate curry. In Calcutta he stayed in a hotel on Middleton Row. He found he had to build a new language to suit the conditions. News from Europe became rapidly more alarming. During the war he was taken to an improvised camp at Fort William. Baumgartner was labeled a German and a hostile. He remained in captivity for six years. In the final camp he saw the Himalayas. He carried with him the habits of an only child and an isolated youth. In the present Baumgartner had a visitor, a blond-haired boy. After the war he had found a room off of Free Street in Calcutta. The city had been bombed. He was advised to go to Bombay. The boy Kurt laughed to have traveled so far to meet H. Baumgartner. When Hugo died, Lotte appeared to say that Hugo should be mourned and that his belongings should be respected.

- I purchased this book thinking that it would give me either: a) a personal glimpse into the world of the Marine Sniper b) a report of stories and circumstances of the Marine Sniper from an objective source. The book offered neither of these. It appears Culbertson is writing from the perspective of one who was there, but had little involvement. He speaks at the beginning of the book, of a get together with some of his sniper buddies many years after the war. One gets the impression this book was written as a result of this get together. I would like so much to have read about the authors experiences rather than much of the political commentary and Marine propaganda that the book expounds upon. The book really taught me nothing about what these men went through. It represents the vague recollections of the author's and other experiences. Not enough meat in it for my liking.
