Thank you for picking our platform for your PDF downloads. We look forward to giving you with outstanding service and diverse choices for years to come.

REVIEW OF THE

SLEEPING BEAUTY THEATRE

- Carolyn Sullivan does nothing halfway; in her world, if she lets down, murderers and rapists go free. A tough but fair parole officer, Sullivan does whatever she can to ensure criminals get what's coming to them. Around the police station, her nickname is the Angel of Death, because inmates whom she interviews tend to get the maximum sentence. Twenty-three years ago paranoid schizophrenic Daniel Metroix went to prison for pushing the son of the police chief into the path of an oncoming car. When Carolyn Sullivan discovers her new parolee, Metroix, is not only innocent of murder but is in danger of being executed to

protect the guilty, Sullivan cannot step aside until justice is done. With the flair of a mystery/thriller action movie, Nancy Taylor Rosenberg has woven a fast-paced tale with a heroine any working woman can identify with. Sullivan wants nothing more than to do right by her family, but she is in too deep too fast. After an explosion almost kills her, and vandalism strikes too close to home, Carolyn realizes that the only way to protect her family is to reveal the truth behind the twenty-three year old murder. With twists and turns that strike to the core, Sullivan's Law is told in convincing detail. Rosenberg's own history as a parole officer paints a vivid picture of the realities of that system and all

of its flaws. Rosenberg knows how to captivate her audience with gripping detail and compelling characters that keep you turning pages late into the night. For lovers of crime-drama, this is a must-read, and will leave you wanting more of Carolyn Sullivan. There is an informative Q & A on Sullivan's Law on the site:

nancyrosenberg.com as well as a contest to win

1st edition/autographed copies of her books! Rosenberg Fans should check it out!

- Positive Points: Cram Sheet & first MCP+SB book to hit the market. Negative Points: Like all ExamCrams it has minor inaccuracies and the questions are much easier than the real exam. But in this case,

the content does not even address many important aspects of the FrontPage98 exam. The author talks about the exam being ADAPTIVE. It is not. The exam is however INTERACTIVE. And the author makes NO mention of this. Strange because about 14 out of 72 questions on the exam are interactive. Why the author neglects to mention this, or fails to cover it, is a mystery. Also the book does not cover the new format for the 'scenario' questions. Although it does offer about a half dozen questions that are SIMILAR, they are slightly different from what you see on the real exam and no attempt is made to explain them. Finally, the book is very weak on business analysis. If

you absolutely have to buy a book for this exam, then this is your only choice right now. If possible, wait until something better comes around.
