REVIEW OF A WAY IN THE WORLD VS NAIPAUL

- A Rake's Vow is the second book in Stephanie Laurens' Cynster series. After reading the first book in the series - Devil's Bride - I couldn't wait to read Vane's story. He was one of my favourite side characters in Devil's Bride and, as such, A Rake's Vow, promised to be just as enjoyable. Unfortunately, it did not live up to expectations. For me, this book lacks the excitement, humour and emotion that features in Devil's Bride. Vane and Patience share a physical passion but I felt there was a lack of real chemistry and their love is not really believable. The mystery surrounding the spectre and the thief is a little weak and I found sections of the book rather boring. Similarly to Devil's Bride, Laurens filled this book with numerous explicit

sex scenes, each of which are described in such intricate detail that they cover pages and pages of the book. This also has a tendency to become somewhat boring after a while. I am hoping the other books in the Cynster series are an improvement on this particular book as I would still like to read them all but, after the disappointment of this book, I will leave it for a little while.

- Some people are able to believe in everything what seems to be logic and supported by some equations and statistics. It is really funny that even the wildest theory will always find its followers. Russian science has problem with pseudoscientists. For instance:

Lysenko, Michurin in the agrobiolgy and now Famenko in history. Maybe in the next volumes of his revised version of history he will try to convince us that:- Jews are the descendants of merchants who did not pay taxes regularly and were expelled from the Novogrod.- Ethiopians are the descendants of the miners (that's why they are black) who escaped from the coal mines, which were placed in Ural. But one of them remained in Russia and later he became the grandfather of Alexander Pushkin.- Asians are the descendants of peepers or spies (that's why they have eyes with an epicanthic fold) who were unmasked and left Russia. Because everything can be proved with statistics.
