REVIEW OF ELEMENTARY DIFFERENTIAL EQUATIONS 10TH EDITION SOLUTIONS

- I think that Minfong really processes a good knowledge of vocabulary and the

knowledge of knowing how to express them. Dawan is a girl which I thought would give up on the thought of having a scholarship in a city initially. I never knew that she is so determined that she can actually moved her father to the positive way of looking that girls need to study further also. This a fine, good example that happens in our world every time especially in a country where women are not think important.

- This book is really interesting.It

illustrates life in Thailand then. People live in attap houses and their main source of food is rice. Buffaloes were one of the animals they depended on for farming. Dawan is a girl who is 14 years old, and Kwai, her brother is 13 years old. At that time, there was gender discrimination and boys were more important than girls. Mostly boys were allowed to study. Dawan got to study because Kwai insisted so after he started school shortly. This book is very touching and I think all of you should read it.
