All I ever wanted was to be a female fighter. It was in my blood to smack people around. Some girls wore pink dresses and makeup, I wore sneakers and bruises. I was a loner, stuck to myself because I was different, until Camden Steel moved next door. I punched him in the mouth, and he saw me through rose colored glasses from that day on. I had everything I ever wanted. The boy next door, inspiring career... until I didn't. He hates me. I deserve that. They say you have to fight for what you want... What they don't tell you... is it'll cost you more than you're willing to give to reach the top.

The Art of War is an enduring classic that holds a special place in the culture and history of East Asia. An ancient Chinese text on the philosophy and politics of warfare and military strategy, the treatise was written in 6th century B.C. by a warrior-philosopher now famous all over the world as Sun Tzu. Sun Tzu's teachings remain as relevant to leaders and strategists today as they were to rulers and military generals in ancient times. Divided into thirteen chapters and written succinctly, The Art of War is a must-read for anybody who works in a competitive environment.

Is peace an aberration? The bestselling author of Paris 1919 offers a provocative view of war as an essential component of humanity. NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY THE NEW YORK TIMES BOOK REVIEW AND THE EAST HAMPTON STAR "Margaret MacMillan has produced another seminal

work. . . . She is right that we must, more than ever, think about war. And she has shown us how in this brilliant, elegantly written book.”—H.R. McMaster, author of *Dereliction of Duty* and *Battlefields: The Fight to Defend the Free World* The instinct to fight may be innate in human nature, but war—organized violence—comes with organized society. War has shaped humanity’s history, its social and political institutions, its values and ideas. Our very language, our public spaces, our private memories, and some of our greatest cultural treasures reflect the glory and the misery of war. War is an uncomfortable and challenging subject not least because it brings out both the vilest and the noblest aspects of humanity. Margaret MacMillan looks at the ways in which war has influenced human society and how, in turn, changes in political organization, technology, or ideologies have affected how and why we fight. *War: How Conflict Shaped Us* explores such much-debated and controversial questions as: When did war first start? Does human nature doom us to fight one another? Why has war been described as the most organized of all human activities? Why are warriors almost always men? Is war ever within our control? Drawing on lessons from wars throughout the past, from classical history to the present day, MacMillan reveals the many faces of war—the way it has determined our past, our future, our views of the world, and our very conception of ourselves.

America’s most inspirational voices, in their own words: “If you’re looking for a reason to act and dream again, you’ll find it in the pages of this book” (Chicago Tribune). Published when Studs Terkel was ninety-one years old, this astonishing oral history tackles one of the famed journalist’s most elusive subjects: Hope. Where does it come from? What are its essential qualities? How do we sustain it in the darkest of times? An alternative, more personal chronicle of the “American century,” *Hope Dies Last* is a testament to the indefatigable spirit that Studs has always embodied, and an inheritance for those who, by taking a stand, are making concrete the dreams of today. A former death row inmate who served nearly twenty years for a crime he did not commit discusses his never-ending fight for justice. Tom Hayden, author of *The Port Huron Statement*, contemplates the legacy of 1960s student activism. Liberal economist John Kenneth Galbraith reflects on the enduring problem of corporate malfeasance. From a doctor who teaches his young students compassion to the retired brigadier general who flew the *Enola Gay* over Hiroshima, these interviews tell us much about the power of the American dream and the force of individuals who advocate for a better world. With grace and warmth, Terkel’s subjects express their secret hopes and dreams. Taken together, this collection of interviews tells an inspiring story of optimism and persistence, told in voices that resonate with the eloquence of conviction. “The

value of Hope Dies Last lies not in what it teaches readers about its narrow subject, but in the fascinating stories it reveals, and the insight it allows into the vast range of human experience.” —The A.V. Club “Very Terkelesque—by now the man requires an adjective of his own.” —Margaret Atwood, The New York Times Review of Books “An American treasure.” —Cornel West

One of the most persistent concerns about the future is whether it will be

dominated by the predictive algorithms of AI – and, if so, what this will mean for our behaviour, for our institutions and for what it means to be human. AI changes our experience of time and the future and challenges our identities, yet we are blinded by its efficiency and fail to understand how it affects us. At the heart of our trust in AI lies a paradox: we leverage AI to increase our control over the future and uncertainty, while at the same time the performativity of AI, the power it has to make us act in the ways it predicts, reduces our agency over the future. This happens when we forget that that we humans have created the digital technologies to which we attribute agency. These developments also challenge the narrative of progress, which played such a central role in modernity and is based on the hubris of total control. We are now moving into an era where this control is limited as AI monitors our actions, posing the threat of surveillance, but also offering the opportunity to reappropriate control and transform it into care. As we try to adjust to a world in which algorithms, robots and avatars play an ever-increasing role, we need to understand better the limitations of AI and how their predictions affect our agency, while at the same time having the courage to embrace the uncertainty of the future.

According to William Ury, it takes two sides to fight, but a third to stop. Distilling the lessons of two decades of experience in family struggles, labor strikes, and wars, he presents a bold new strategy for stopping fights. He also describes ten practical roles--as managers, teachers, parents, and citizens--that each of us can play every day to prevent destructive conflict. Fighting isn't an inevitable part of human nature, Ury explains, drawing on his training as an anthropologist and his work among primitive tribes and modern corporations. We have a powerful alternative--The Third Side--which can transform our daily battles into creative conflict and cooperation at home, at work, and in the world.

"Same-sex marriage, #BlackLivesMatter, the Dream Act, the People's Climate March, End the New Jim Crow, Occupy Wall Street--these are just a few of the initiatives that have taken flight in the past decade, the most fertile and productive era of activism and reform this country has seen since the 1960s. Now, in a visually rich and deeply inspiring book, movement leaders and activists distill their wisdom, sharing lessons of what works and what hinders transformative social change. Weaving together interviews with today's most successful activists--from Bill McKibben and Clayton Thomas Muller to Karen Lewis, Rinku Sen, Ai-jen Poo, Favianna Rodriguez, Rea Carey, Gaby Pacheco, Patrice Collins, and more--with narrative recountings of strategies and campaigns alongside full-color photos and an afterword by Antonia Darder, social activist Greg Jobin-Leeds joins forces with AgitArte, an organization of artists and organizers, to document the stories,

philosophy, tactics, and art of today's leading social change movements. Beautifully packaged in a wonderfully affordable paperback edition, *When We Fight, We Win!* will allow a whole generation of readers to celebrate and benefit from a remarkable decade of activism and reform. "--

Who will lead America in the years to come? *Letters from Young Activists* introduces America's bold, exciting, new generation of activists. These diverse authors challenge the common misconception that today's young people are apathetic, shallow, and materialistic. Aged ten to thirty-one, these atheist, Christian, Jewish, Muslim, pagan, transgender, heterosexual, bisexual, metrosexual Americans are from every type of background and ethnicity, but are united by their struggle toward a common goal. They are the inheritors of their parents' legacy from the sixties, but also have the imagination and courage to embark on new paths and

different directions. In letters addressed to their parents, to past generations, to each other, to the youth of tomorrow and to their future selves, each author articulates his or her vision for the world as they work towards racial, economic, gender, environmental and global justice. As the editors write in their introduction: "From globalization to the war on terrorism and beyond, our generation is compelled to action in the midst of a rapidly changing, and unique political moment Our challenge, and yours, is to live our lives in a way that does not make a mockery of our values."

"Drawing on her decades of experience, Pandith unweaves the tangled web of extremism and demonstrates how government officials, tech CEOs, and concerned citizens alike can do their part to defeat it." – Former Secretary of State Madeleine K. Albright There is a war being fought, and we are losing it. Despite the billions of dollars spent since 9/11 trying to defeat terrorist organizations, the so-called Islamic State, Al Qaeda, and other groups remain a terrifying geopolitical threat. In some ways the threat has grown worse: The 9/11 hijackers came from far away; the danger today can come from anywhere—from the other side of the world to across the street. Unable to stem recruitment, we seem doomed to a worsening struggle with a constantly evolving enemy that remains several steps ahead of us. Unfortunately, current policies seem almost guaranteed not to reduce extremist violence but instead to make it easier for terrorists to spread their hateful ideas, recruit new members, and carry out attacks. We actually possess the means right now to inoculate communities against extremist ideologies. In *How We Win*, Farah Pandith presents a revolutionary new analysis of global extremism as well as powerful but seldom-used strategies for

vanquishing it. Drawing on her visits to eighty countries, the hundreds of interviews and focus groups she's conducted around the world, and her high-level experience in the Bush and Obama administrations, Pandith argues for a paradigm shift in our approach to combat extremism, one that mobilizes the expertise and resources of diplomats, corporate leaders, mental health experts, social scientists, entrepreneurs, local communities, and, most of all, global youth themselves. There is a war being fought, and we can win it. This is how.

A psychologist with a reputation for penetrating to the heart of complex parenting issues joins forces with a physician and bestselling author to tackle one of the most disturbing and misunderstood trends of our time -- peers replacing parents in the lives of our children. Dr. Neufeld has dubbed this

phenomenon peer orientation, which refers to the tendency of children and youth to look to their peers for direction: for a sense of right and wrong, for values, identity and codes of behaviour. But peer orientation undermines family cohesion, poisons the school atmosphere, and fosters an aggressively hostile and sexualized youth culture. It provides a powerful explanation for schoolyard bullying and youth violence; its effects are painfully evident in the context of teenage gangs and criminal activity, in tragedies such as in Littleton, Colorado; Tabor, Alberta and Victoria, B.C. It is an escalating trend that has never been adequately described or contested until *Hold On to Your Kids*. Once understood, it becomes self-evident -- as do the solutions. *Hold On to Your Kids* will restore parenting to its natural intuitive basis and the parent-child relationship to its rightful preeminence. The concepts, principles and practical advice contained in *Hold On to Your Kids* will empower parents to satisfy their children's inborn need to find direction by turning towards a source of authority, contact and warmth. Something has changed. One can sense it, one can feel it, just not find the words for it. Children are not quite the same as we remember being. They seem less likely to take their cues from adults, less inclined to please those in charge, less afraid of getting into trouble. Parenting, too, seems to have changed. Our parents seemed more confident, more certain of themselves and had more impact on us, for better or for worse. For many, parenting does not feel natural. Adults through the ages have complained about children being less respectful of their elders and more difficult to manage than preceding generations, but could it be that this

time it is for real? -- from Hold On to Your Kids

What really sets the best managers above the rest? It's their power to build a cadre of employees who have great inner work lives—consistently positive emotions; strong motivation; and favorable perceptions of the organization, their work, and their colleagues. The worst managers undermine inner work life, often unwittingly. As Teresa Amabile and Steven Kramer explain in *The Progress Principle*, seemingly mundane workday events can make or break employees' inner work lives. But it's forward momentum in meaningful work—progress—that creates the best inner work lives. Through rigorous analysis of nearly 12,000 diary entries provided by 238 employees in 7 companies, the authors explain how managers can foster progress and enhance inner work life every day. The book shows how to remove obstacles to progress, including meaningless tasks and toxic relationships. It also explains how to activate two forces that enable progress: (1) catalysts—events that directly facilitate project work, such as clear goals and autonomy—and (2) nourishers—interpersonal events that uplift workers, including encouragement and demonstrations of respect and collegiality. Brimming with honest examples from the companies studied, *The Progress Principle* equips aspiring and seasoned leaders alike with the insights they need to maximize their people's performance.

"Sebastian Gorka was [President

Trump's] strategist. Dr. Gorka knows Donald Trump and the threats we face. Buy and read *Why We Fight* to find how we win and what it means to be an American hero." — RUSH LIMBAUGH WAR. It will happen again. We must be ready. Sober words from Dr. Sebastian Gorka, a man who has made the unvarnished truth his specialty. And there's one eternal truth that Americans are in danger of forgetting: the most important weapon in any geopolitical conflict is the will to win. And we must win. In this powerful manifesto, Dr. Gorka explains the basic principles that have guided strategists since Sun Tzu penned *The Art of War* in the sixth century B.C. To defeat your enemy, you must know him. But that's the last thing liberal elites are interested in. Willful ignorance about our adversary—whether it's Russia, China, or the global jihadi movement—has been crippling. Tearing off America's politically correct blindfold, Dr. Gorka clarifies who our foes are and what makes them tick. An eight-year vacation from geopolitical reality under Obama left our country dangerously weakened. Dr. Gorka addresses the pressing questions we face as we rebuild under President Trump's leadership: - What are the most serious threats to American security? - How are they different from the threats of the past? - What can we do to counter these threats? - How can we achieve the "perfect victory" of vanquishing our enemies without mortal combat? All the money and weapons in the world cannot substitute for the will to fight for our precious country and what she represents. To remind us of what the will to win looks like, Dr. Gorka intersperses the stories of four American heroes—Stephen Decatur, Chesty Puller, "Red" McDaniel, and a warrior who

never took up arms, Whittaker Chambers—men who believed in their country and put everything on the line for her.

## **REVIEW OF WHEN WE FIGHT WE WIN TWENTY FIRST CENTURY SOCIAL MOVEMENTS AND THE ACTIVISTS THAT ARE TRANSFORMING OUR WORLD**

- I read some of this book in high school, but read it in its entirety recently to see how I felt about it as a 32-year-old adult. I enjoyed it somewhat. It is a good plot concept in general, with lots of opportunity for analysis and psychological scrutiny. However, oftentimes I had a difficult time believing that the characters were children, because they seemed to behave a little too adult for their age. The writing was a bit verbose for my tastes, although not excessively so. Because of this, it didn't suck me into its world entirely, and it wasn't something that I was very enthusiastic about finishing, except to find out how it ends. Overall, this is worth reading if you have any curiosity about it, but it may take some determination to get through it.

- this is most definitely the best book I have been required to read in high school. "Lord of the Flies" symbolizes the evil within everyone of us and survival with no rules. This novel is definitely worth reading- but not for children. This book hints at a different form of reality- where there are no rules, no compassion...only survival. It will make you doubt yourself and help you to see things differently. It's a very enlightening and insightful book, and I loved it!
