REVIEW OF RITA MULCAHY 8TH EDITION RELEASE DATE

- After finishing this book, I am convinced that people who develop a passion for something, be it for career, avocation, or hobby, tend to live longer and are more frequently happy, and when they die, they die happy. I bet Oliver Sacks is one of these lucky people! Never cease to be fascinated-

-that is one key to happiness, and Sacks proves to us just that. Without question he is a Renaissance man, keen to share with us his enthusiasm for his profession (evident from his excellent prose in "The man who mistook..." and his other books) but stays open to ideas and activities that pique his interest, one of which is attending and participating in the New York Botanical Garden's Fern Society and embarking on a weeklong trip to Oaxaca, Mexico with a quirky cast of people whose common interest in ferns and other plants, and birds, transcend professions, economic status, nationality, and personal histories. The fact that the book was based on his travel

journals that were written at the time of his trip and were left unedited made the reading experience more poignant and powerful. At the end you feel grateful for people who look "beyond the scenery", who take the time "to stop and smell the flowers", and who see the world almost with the same innocence as children, for they are the ones that make life richer, and perhaps even make the world a better place for the rest of us--and for future generations.

- I read all the time and everything, but I confess to being excited and thrilled by only a few of the books

I read. David Denby's "Great Books" is one of them. His love of great books is plain, and infectious, but beyond that his fondness for his fellow students at Columbia University, young, quirky, opinionated, bright and full of passion, is an inspiration. I'm sixty-four years old now. I'm a member and organizer of a Great Books group, and find myself going back to Denby's Great Books for inspiration. David Denby is able to move from what he reads to how he lives and back again; when we accomplish that now and then in our group's discussions we understand why we read.
