## **REVIEW OF THE WATERSHED PROJECT MANAGEMENT GUIDE**

- This must be one of the best books I have read in my whole life! Read it!
- If you even claim to like Sci-Fi literature and yet haven't read

this, you have some ways to go. This book did for science fiction what Lord of the Rings did for fantasy. It showed the heights to which writers could attain in the genre. Dune continues to draw readers with a freshness unmatched for being written in the 60's. Mostly action and intrigue and no boring parts. The characters are wonderful (you'll even like the scum-of-the-earth villains). This book was so good that I had to get the rest of the books in the six part series. If you are even interested in sci-fi literature, I say, "Get it! Get it now!"
