REVIEW OF PHYSICAL SCIENCE PAPER 1 SEPTEMBER 2013 MEMO

- Fantastic service and item .Good all around and exactly as described. Delivered quickly and will no doubt order from them again.

- Little Women is, to put it simply, an great book. Any young woman with the slightest interest in reading would certainly be able to identify with at least one of the four unique sisters, and as I child I was fascinated by the predicaments and adventures of their lives- and convinced that I was in love with Laurie, their charming yet complex "boy next door." This story has not lost its charm because of its powerful illustration of female (obviously, sisterly in particular) relationships, as Alcott emphasizes their commitment to each other even as they grow in separate directions and face adversity. There's a reason why it became a classic...don't pass it up.
