REVIEW OF HADOOP MAPREDUCE V2 COOKBOOK SECOND EDITION

- Too many errors and several sections that just don't make sense. Did an editor review the manuscript before it was published? The problem with these types of books is that the authors work extremely hard to meet unreasonable deadlines...and look at the results.

- I have been through books 1-6. I can not wait until book 7 comes out. Books on CD are great for a the average commuter. These books are very well read and Robert Jordan is the best. These make my daily drive a good event rather than a stressfull event.
