Download Books Eddie Vedder Ukulele Pdf Download Now PDF complimentary and improve your learning experience!

REVIEW OF BOOKS EDDIE VEDDER UKULELE PDF DOWNLOAD NOW

- I think there are some fantastic patterns in this book. Yes, some of them are ridiculous (crocheted bikini - wtf?) but the majority of them are things I would at least consider making and they are definitely better and more modern than most crochet patterns out there. However my problem is with how the book is packaged/marketed. On the cover, I see Debbie Stoller is huge letters. Most people are buying this book for the patterns, not for the lame how-to. Trying to teach

yourself to crochet will drive most people absolutely crazy - trust me, I've tried. So I think most buyers of the book already know how to crochet. Therefore, we're using the pattern section of the book which isn't by Debbie Stoller. She's wearing the cowboy hat on the front which by the way is 1. cute and 2. made with value-priced Red Heart yarn. Oh and the pattern is not by her. So would it be so hard to actually say that they book is edited by Stoller, not written by her? I just think credit should go to the pattern creators because they are the ones who actually make this book worth buying, not the "author."

- I bought this book and struggled through

it to review for my certification exam, and I did alright, but I noticed a few instances where either through typographical or proofreading errors the book presented incorrect answers to its sample problems. I also felt that this book's section on calculation review was written to sell the calculations manual available from the same series. If you haven't done serious calculation work for some time, this is not the review for you. I use calculations frequently as I work, and even so, these authors managed to make me question my ability. There are probably better review books available, but I was too cheap to buy another after spending \$35 on this one.
