REVIEW OF PEARSON EDUCATION 5 MATH ANSWERS

- THE GIVER! would give the GIVER 5 stars because it has Vary Vary Good description. This book keep's thinking alot like a movie wher you don't know what is going to happen next.And you can't stop reading because the book is so good and you have to know what is going next.GET THIS BOOK NOW!!!!

- The Giver is an excellent newbery that portrays a world unlike our own. That world is a well organized society where people are put into jobs by the Elderly and a happy, peaceful place. However, this world is dull in color and sound. This is a place that needs color and music. It also needs it's people to sense feelings and even weather: happiness, coldness, and disaster. A boy named Jonas has been chosen to hold these memories of the past, for his job is the Receiver ,from the Giver (pervious Receiver). But, now he sees how his world is dull in appearance and understanding, he's going to change it.I highly recommend this book because of it's text. This book has adventure and lots of cliffhangers, which will make you want to just keep reading. I believe, one of the most important things this book is trying to help us understand our world. There are still many thing we haven't experienced like real starvation in poor countries or being bombed by planes.The Giver has helped me really understand our world.My favorite part of this newbery is when Jonas is thinking about what he has learned as a Receiver. He started to think about the world's past (our world). He compared it to his world to our's and found out one thing: the other people in the community have no experience with real feelings. Once, his sister said she was very angry for a boy cutting inline for a slide. However, she has no idea what anger is, like Jonas. She felt only shallow impatience, not true anger. This is why it is my favorite part.
