## REVIEW OF PERSONNEL MANAGEMENT PRINCIPLES PRACTICES AND POINT OF VIEW

- The author's expertise is mostly in the natural world, so the most detailed and persuasive in his explanations of the future effects of global warming on nature. It's clear that the world our great-grandchildren will inherit is not going to resemble the one we live in now. Lots and lots of species, perhaps most, will be gone. If I have a quibble with the book it's his focus on what we can do as individuals to reduce climate change. Not that he's wrong to point it out, but in the end, this is a problem that can only be solved if the governments of the world decide to take action.

- John Culbertson is in my opinion, a true patriot, and has an excellent way of presenting his stories. I have read his books and especially enjoyed this one as I, quite surprisingly, found my name mentioned as an F-4 pilot! Having always fantasized about how I would have performed as a grunt, rather than a pilot, I can, through the eyes of John, vicariously live the life I've always wondered about. His stories put me there as though I am living the part and appreciate his attention to detail. I sense his accounts are factual, not over dramatized, and leaves me with a real appreciation of not having had to experience the ordeals he and so many of his comrades had to endure. I highly recommend this as well as any other books or articles John has written. A job well done!!
