## **REVIEW OF KENWOOD DDX418 INSTALLATION GUIDE**

- There is nothing unexpected about the way Tolkien wrote this adventure. I read it after reading LOTR, and it does not disappoint. The dwarves are my favorite species in Middle-Earth and this book is just amazing from start to finish. I really think that

this is a good family book, and I'm kind of sad that my father is not an avid reader. I would really have loved to share this adventure with someone who would be able to enjoy it as much as myself. Read this, the Lord of the Rings and the Silmarillion and you will just hunger for more stories from Middle-Earth.

- Though it took a bit to get into this book, once you do you are hooked. Then you can not put it down. I enjoyed this book a great deal. Well written of course. You are off on adventure and must know the end. To the very last page I loved the little Hobbit. Savoring each page of his adventures. A nice easy read.
