Aisc Design Guide 28

REVIEW OF AISC DESIGN GUIDE 28

- Ransom is an amazing book. As with every other book Julie Garwood has written, the story comes to life. Her characters are incredibly realistic and you feel like you actually get to know them during the duration of the story. I've owned Ransom since it came out and have already read it at least 10 times. It's an amazing story and I would recommend it to anyone.
- Jim the Boy, by Tony Earley is a straightforward novel, which revolves around 10-year-old protagonist, Jim. Jim's father passed away prior to his birth, and he is left with his mom and her three brothers. In the one-year span of the story, we follow as Jim lives everyday

life in Aliceville, North Carolina in 1934, during The Great Depression. Jim and his family have a solid relationship, and they live simple, peaceful lives on the family farm. Once Jim begins school, he experiences three main events that have an impact on his life: the introduction of electricity to Aliceville, a visit to the Atlantic Ocean in South Carolina, and travels up the mountain to Painter's Creek, to visit with Penn and his

grandfather. Although the plot seems flat, and one-dimensional, Earley has created a novel that depicts the innocence of childhood, and an account of simpler times. The importance of the story then is found in Jim's growth as a young man, and the revelations he makes through life experiences. Despite being slow at times, the novel is well-written, and portrays good-natured, honest, characters.
