REVIEW OF THE CANDLE OF VISION

- With this engaging, entertaining and thought-provoking book, Ben Yagoda continues the discussion of what constitutes good writing that he initiated in "About Town: The New Yorker and the World It Made." Well researched, considered and reasoned, the book opens with a fascinating cultural history of the concept of style. Arguments over whether it is best to write like Hemingway or Faulkner (or the middle-of-the-road Fitzgerald) date back, Yagoda notes, to the Greeks. In "On Rhetoric," for example, Aristotle emphasized clarity, transparency and decorum with an approach that presages some of the modern -- albeit, as Yagoda

demonstrates, far from universally accepted -- message of Strunk & White's touchstone, "The Elements of Style." Yagoda then takes us on a journey across two hemispheres to discuss, with 40 different writers as diverse as Supreme Court Justice Stephen Breyer and best-selling humorist Bill Bryson, how they got their grooves. In short thematically arranged snippets and later, in extended monologues, they talk freely about: the writers who influenced them; how they arrived at their style, or styles; even the nuts-and-bolts question of how their writing implements (pen, typewriter, computer) and methods of revision affect the sound

that we hear when we read their works. If you're like me, you'll find yourself endeavoring to read for the first time, or re-read, some of Yagoda's interview subjects and those they cite as seminal influences, such as the grand dame of essayists, Joan Didion. For any reader or writer who gives a damn about the written word, this is a richly rewarding book.

- The two main characters really know how to get under each others skin and it was too much fun to read. I really wondered how things working out in the end other than they are together but a good read.
