REVIEW OF FOUNDATIONS OF EARTH SCIENCE LUTGENS 6TH EDITION

- For those who have never looked at the Qur'an before, the Penguin Classics "Koran" is a good place to start. While there are better translations, this is not a bad one to get your first taste on. I have found Abdullah Yusef Ali's translation superior to this one, but that has been mostly due to contact

with Muslims who seemed to think it was better. However, the Penguin one is adequate to get a good idea of what is in the Qur'an. If you are just looking to satisfy your curiosity about it, this one is good, and it is cheaper than many others about.

- In this very cute story, along with her mother, Becky, sets out on a shopping trip to find a doll that looks like her. As a collector of dolls that look like me and of books featuring black dolls, I was happy to discover and add this 1966 beautifully illustrated book to my books with dolls collection.
