REVIEW OF BOOKS PROCEDURES AND ARRANGEMENT MANUAL FOR CHEMICAL

- There are so many colleges, and each one has something that makes it different and interesting. How do students choose which one is right for them? The book, "Unofficial Biased Insider's Guide to the 328 Most Interesting Colleges," by Trent Anderson and Seppy Basili, is one guide you

don't want to miss! In this book you'll find: profiles of the 328 most interesting colleges, which includes but is not limited to: demographic & general information; information about classes; campus environment; student life; tuition & financial aid information and much more! You'll also find a self-assessment quiz; recommended schools and advice from the experts. And did I mention, there is a lot of advice :)? MyParentTime.com highly recommends this book -- if you are planning on entering college, you're sure to find out a lot of information from this book. Even if you don't apply to any of the colleges listed, you'll learn enough about

college life and will be better equipped to ask the right questions about the colleges you do apply for.

- We bought this for

our 6 year old son who loves science. This book gives pretty good experiment ideas but some are better for older kids (age 8 and up). Glad we bought it!
