IMAGINARY CREATURES depicted in a people's lower mythology are one of the most important phenomena in their belief systems. This is because the common folk in particular must strive to maintain harmonious relations with these creatures, a continuous process that permeates many aspects of their everyday lives and requires the intercession of a special person in the community who acts as the medium of communication between them.The subject of Maximo D. Ramos's work is the creatures of Philippine lower mythology, as this level of folklore is called. In undertaking this study, Dr. Ramos directed his efforts to two principal tasks: (1) making a taxonomic classification of all the beings which in his opinion fall within the framework of the problem as found in Philippine folk beliefs, and (2) correlating the implications of these beliefs, in terms of these classifications, to education, particularly on the elementary level.The taxonomic classification is intended to help clear up the confusion that attended earlier studies of these creatures. This is indeed the first attempt to systematize the identities of these Philippine mythological beings for the benefit of folklore scholarship. More specifically, Ramos writes: "Where names, traits, and functions appear to have become confused ... through the process of transfer that constantly occurs in traditional lore, it was thought fruitful to point these out and then attempt to account for them".In spite of the very extensive Christianization of the Filipinos-particularly the lowlanders-these mythical entities still persist in their traditional belief systems, hence the student of folk traditions cannot ignore them if he is to achieve greater relevance in his studies. Little by little the perspective from which these creatures have been traditionally viewed is bound to change until they are accepted as part of our cultural heritage. This change is bringing about an understanding of these creatures' function in our society.The present work is primarily taxonomic in nature but it sheds light into many of the dark corners of Philippine folklore studies and brings to the reader a fuller understanding of the most maligned inhabitants of the Philippine other- world. Herein lies the major contribution of Dr. Ramos-a basic recognition and a deeper insight into the cultural heritage of the Filipino.

Spine-tingling tales of supernatural encounters and hauntings. Ghost stories are commonplace in traditional Filipino culture. Whether they take place at a relative's funeral or a hacienda located deep in a remote province, virtually all families have their own personal accounts of their encounters with the supernatural. Passed on from generation to generation, these tales act as a bridge to the past, to a time lost or nearly forgotten. To write this book of ghostly encounters with all manner of things eerie and terrifying in the Philippines, the author collected creepy tales that have been told in his family for generations. Covering ghostly encounters in bustling cities and in remote towns—and even a short section of hauntings on American soil—Filipino Ghost Stories offers good, old-fashioned scary stories perfect to share around the campfire or under the blankets with a flashlight. Like secret food recipes, traditional ghost stories in the Philippines are valuable personal heirlooms, something to be passed forward to future generations. This book delivers terrific entertainment—and some good spine tingling chills—for those interested in the Philippines and aficionados of the supernatural alike. Filipino ghost stories include: Great Balls of Fire Caught in the Wake Family Ties that Bind Just Outside the Door Pitch Black Only the Wind A Brush with the Unknown Hide and Shriek

From time to time since the American occupation of the Islands, Philippine folk-tales have appeared in scientific publications, but never, so far as the writer is aware, has there been an attempt to offer to the general public a comprehensive popular collection of this material. It is my earnest hope that this collection of tales will give those who are interested opportunity to learn something of the magic, superstitions, and weird customs of the Filipinos, and to feel the charm of their wonder-world as it is pictured by these dark-skinned inhabitants of our Island possessions.In company with my husband, who was engaged in ethnological work for the Field Museum of Natural History, it was my good fortune to spend four years among the wild tribes of the Philippines, During this time we frequently heard these stories, either related by the people in their homes and around the camp fires or chanted by the pagan priests in communion with the spirits. The tales are now published in this little volume, with the addition of a few folk-legends that have appeared in the Journal of American Folk-Lore and in scientific publications, here retold with some additions made by native story-tellers.I have endeavored to select typical tales from tribes widely separated and varying in culture from savagery to a rather high degree of development. The stories are therefore divided into five groups, as follows: Tinguian, Igorot, the Wild Tribes of Mindanao, Moro, and Christian, The first two groups, Tinguian and Igorot, are from natives who inhabit the rugged mountain region of northwestern Luzon. From time immemorial they have been zealous head-hunters, and the stories teem with references to customs and superstitions connected with their savage practices. By far the largest number belong to the Tinguian group. In order to appreciate these tales to the fullest extent, we must understand the point of view of the Tinguian. To him they embody all the known traditions of "the first times"-of the people who inhabited the earth before the present race appeared, of the ancient heroes and their powers and achievements. In them he finds an explanation of and reason

for many of his present laws and customs

Philippine Folk Literature: The Epics presents 23 folk epics collected from some 14 ethnolinguistic groups in the country. This is the eighth volume being added to the original 7-volume Philippine Folk Literature Series. Folk epics are long heroic narratives in verse which recount the adventures of tribal heroes and in the process express the customs, beliefs, and ideals of the people who sing them. The introductory essay, The Philippine Folk Epic, gives a detailed discussion of the features and characteristics of Philippine folk epics--their geographic distribution; epic singing and singers; the epic hero, his adventures and his outstanding qualities; epic conventions; dominant motifs; and the customs, beliefs, and values expressed in them. The epics are arranged in geographic order from north to south, starting with Lam-ang (Northern. Luzon), then to Labaw Donggon (Visayas), and on to Mindanao, w the greatest number of our folk epics come from (Tuwaang, Agyu, Bantugan, etc.). A distinctive feature of Philippine epic literature is that while other countries have one national epic hero, e.g., England's Beowulf, Spain's El Cid, etc., the Philippines has no national epic hero but more than a dozen tribal epic heroes. This volume thus gives the reader an opportunity to get acquainted with these folk epic heroes and the values and ideals they stand for. As in the other volumes in the Philippine Folk Literature Series, the selections are given in English translation, but a sampling of the text in the original language is given at the beginning of each selection.

REVIEW OF PHILIPPINE FOLKLORE STORIES

- This book offers many different view points on Buddhism, how it came to be, how it spread and how it is interpreted and practiced. It is a great book for those who want to know more about Buddhism and for those who are wanting to start the path to enlightenment. For someone who has been practicing Buddhism for some time it is a great reference and for those (like me) who integrate certain practices into their daily life it is a great book to quickly find what you are looking for. The book is set up very nicely in that it will tell you what chapter will more fully explain a concept and you can easily jump back and forth in the book with out having to go chapter by chapter when reading it.
- As someone that reads alot of books, both technical and non-technical, this is definetly the worst written book I've ever seen. It seems it has not been read by any editors.You can find typos, spelling mistakes, grammar errors and such all over the place. The authors just copy-pasted some of them over and over again. The text is boring to death, and for some reason, the least needed parts are repeated several times. For example, the meaning of "Description" of a field in a list is explained more than a dozen times in less that 5 pages.All of this, even before touching the content and subject of the book itself. The order of the content was not well thought of, the style of writing is boring, and the content itself is not very informative.As a developer, I did not expect to find much on the development side of SharePoint, but I doubt that even technicians and solution architects will find much help in this one.
