## REVIEW OF EARTH THE SEQUEL RACE TO REINVENT ENERGY AND STOP GLOBAL WARMING FRED KRUPP

- The novel "The Giver" contains many interesting facts about a science fiction world, that is completely controlled. However, there are some aspects that aren't really clear, so that you have to imagine the answers for yourselves, e.g. the open end and why this world was created. Undoubtedly these unanswered questions make this story even more exciting. All in all it's a very interesting story that is thought-out well.

- This is a creepy, dystopian novel about a society that appears to be perfect but really isn't. How many of these have been written? I got a weird feeling when they talked about the pilot being released for an error- Wow. I could almost see the creepy smiles. MWAAHAHAHA... I had to read this for English, and I have hated my teacher since for making me read this. This book just bored me to death, reading it was like pulling eyeteeth. Especially with all the memories. After a point, I didn't even care!! (I wonder, did I ever care? Probably not.) Their perfection also bored me. How monotonous. This was also really creepy, because they were going to kill an innocent baby just because he couldn't sleep!! The sled was also confusing... What the heck is so important about a sled? In short, a creepy book about a futuristic society that bored me to death. Please do not read for the sake of your sanity.
