REVIEW OF A PRACTICAL HANDBOOK OF PREPARATIVE HPLC

- Great book with a smooth storytelling style. The moral is by far the best part will definitely make you stop and appreciate life a bit more after reading.

- I liked how this book relates to the world we live in. The way it portrays the Government as an all powerful force that silences original thought through the burning of books and the voices of the authors. I pray that this fantasy never becomes a reality. But I fear that such a future isn't to far off!
