REVIEW OF USER GUIDE APS5

- This book is extremely well organized and the logic of thought is excellent. The issue and the core of the problem are so well defined and the single line of argument is being built step by step. People often argue on political issues without knowing what're the counterpart's assumptions, and this book offers a clear explanation of the source of the conflict. The same kind of conflict of visions actually not only exists in the US, as I was thinking about the difference btw. confucianism and Taoism in ancient China and the assumptions used by both sides (constrained and unconstrained visions) is strikingly similar to today's left and right's parties. This book leads me to think of things I've never thought about, and the clarity of thought is the hallmark of Dr. Sowell, whether you agree with him or not.

- I liked this even more than the Time Master Trilogy; the characters have more personality, and the stakes are higher. A fantastic read!
