REVIEW OF VINOTEMP VT 16TEDS USER GUIDE

- If you're a working mother on a limited budget, this eating plan is not practical. I'm sure it would work if I'd had the money to buy the large amounts of fresh vegetables and fruit, the time to prepare it and the ability to exercise after the kids are in bed. I couldn't find carbohydrate powder at the local nutrition store, or just protein powder. It was all combined and VERY expensive. The mid-morning snack bars are also not cheap. The book gives excellent guidelines, but you really need to know how to create and cook or to buy the cookbook for ideas how to prepare the various food selections. This seems to be well researched, but just another frustration for the working mother who, in spite of running from dawn to midnight, still carries extra weight.

- Neat the way the 'poor relations' work together. This is what I

would term a nice light reading book. However although light and amusingly happy reading; throughout the series it does impart how difficult life must have been for the poor relations. Seemingly more difficult than the hoi polloi who could at least work.
