You can find them on blog sites, podcasts, and also social media sites groups.

With these ideas, you can locate the ideal Pilots Reference Guide book summaries for your passions and choices. Satisfied reading!

REVIEW OF PILOTS REFERENCE GUIDE

- I had waited for this book a long time and while some areas of the novel were turned out in Kenyon's usual dynamic style, the remainder seemed predictable. Even in a series where the supernatural is the norm, parts of Kenyon's tale remain too unbelievable. Even for her. The relationship between the Heroine and the Hunter sends

Kenyon into long narratives about tolerance. The relationship, at the most basic level, undermines the whole Dark Hunter existence. Kenyon even stretches the fantastic by impregnating the heroine in a dream and saving her by sharing blood with the immortal Hunter. Strange and unpleasant. In addition Ms Kenyon leaves many threads untied and where her usual penchant for foreshadowing of books to come, left me only irritated and confused. Buy it, read it and hang in for the next installment in August. I certainly hope Ms Kenyon has not rushed these into print for her eager fans...for they certainly will wait for the quality of her previous award winning attempts.

- The first two books in this series, and I'm including the prerquel, were excellent. This book was way to brief. We spent hundreds of pages building up to a final battle that was boring, over way to quickly, and didn't make alot of sense compared to the chain of events seen in the previous novels. The Will dilemma is solved in a very unsatisfactory way as were pretty much all the resolutions. It seemed as if Stackpole thought hey time to end it and just threw something together thtat tied up all loose ends. I didn't feel like the ending was given much thought.
