## REVIEW OF CHINESE 2BBREEZE 2B 2BSECRET

- People have watched the poorly conveyed movie, and that keeps them from reading this fine sci-fi book, which is a darn shame. The movie-only folks said, 'What was THAT all about?!?' Well, when they read this excellent book, they'll know! I'm not a huge sci-fi fan (see my listmania book lists), but I found this entire series quite refreshing and well-done. I highly recommend this book (and the subsequent ones), to any fan of fiction, and particularly to sci-fi enthusiasts.

- I love this little book that gives you many inexpensive and fun things to do with your grandchildren. I purchased a copy for one of my friends who just recently became a grandmother. It's a great gift!
