The perfect balance of readability and formalism. Joel Watson has refined his successful text to make it even more student-friendly. A number of sections have been added, and numerous chapters have been substantially revised. Dozens of new exercises have been added, along with solutions to selected exercises. Chapters are short and focused, with just the right amount of mathematical content and end-of-chapter exercises. New passages walk students through tricky topics.

### Boating Voyage Press

By 250 AD, Christianity had spread throughout India and China. Known as the Shining Religion or the Luminous Teaching, it drew adherents from Buddhism and Hinduism who were seeking a faith that taught the possibility

of achieving a society founded on love and compassion for their fellow man. The new doctrine reached the island nation of Japan where it was so well received that Christianity threatened to supplant Buddhism as the dominant religion. By the close of the 16th century Japanese Christians numbered in the millions. Fifty years later Christianity was officially proscribed and Christians faced execution for openly practicing their faith. Jesus and the Samurai tells their fascinating story with facts drawn from ancient and modern sources.

## **REVIEW OF SUZUKI OUTBOARD OWNERS MANUAL**

- As a Usability professional, I have the opportunity and obligation to keep current on the literature surrounding usability research. Usability Testing and Research not only meets those criteria, but also gives readers the opportunity to delve into and understand the usability testing process. Carol Barnum's book is

at first a typical academic textbook that explains not only the principles of usability, but also the argument for usability and user-centered design. However, it is the presence of appendices at the end of most chapters that will help readers perform usability testing. The appendices are detailed copies of documents and protocols used in previous usability tests. The aforementioned principles and arguments would stand on their own merits, but the added appendices give context to the principles and arguments, thus giving the reader the opportunity to see the principles and prototypes in action. From my standpoint as a professional in the field, valid usability testing starts with careful, in-depth preparation. Usability Testing and

Research handholds readers through this process, starting with objectives and ending with participant recruitment. This is a very important aspect of testing, as poor planning always equals poor results. Barnum devotes several pages of the book to a very overlooked aspect of usability testing: reporting the results. Besides the detailed attention given to writing the results in a formal report or a quick report (or roadrunner as the book explains), the book also explains how to present and prepare for an oral report. No matter how valid the test may be, without an accurate, to-the-point report that gives the audience what it needs, the test results and associated costs are wasted. Barnum even discusses visual aids and the importance of the highlight tape. This, of course, is paramount to the

report's success, since seeing is believing. The book even contains a chapter devoted solely to Web usability that details common Web problems as well as insight into the Web's goal-driven users. Although research on the Web is constantly changing due to the experience level of the user base and innovative technology, the Web chapter offers an easy to understand benchmark for all usability professionals who evaluate the Web. All in all, Usability Testing and Research covers everything that an individual new to the field needs to know. It also contains practical advice and how-to that even seasoned usability professionals need to review from time to time. Ken Kellogg Manager - Usability Research

- This action adventure drama is a Mark

Twain tale of a troubled man redirecting his life the fit the sixth century lifestyle. Written from his pen at the low point of his career, Mark Twain's Connecticut Yankee was unorganized, and is unable to hold one's attention. After being forcefully struck on the head by a not so gentle tool, Hank Morgan awakes with the realization that he is not in Kansas any more, in fact he is not in Connecticut either. He opens his eyes as a distraught stranger who has collided with a new age of unworldly elements, known as the sixth century. Coming from nineteenth century America, he is only equipped with confusion and bewilderment. Although throughout his existence in his present setting he learns that he possesses the power of knowledge and experience that he has involuntarily

drawn from the well of the future. Stealthily using this to his advantage he quickly works his way up Camelot's socioeconomic ladder he then takes a position among the sixth century's finest. Almost immediately after acquiring his coveted political stature Hank is questioned of his worth. He is challenged with a knightly quest. Adventure arouses when he nobly accepts this journey. On the way he partners with a disarranged, yet flamboyant, long-winded maiden who shares Hank's company, while ruining his silence throughout their quarry. All through Hank's entity in the sixth century he indirectly influences the people with his foreign knowledge, all the while going through life altering experiences that will be impressed upon

his mind for the rest of his days. It is obviously shown that Mark Twain was in an unhappy stage of his life while composing this piece. Do not be disillusioned by past reputations. The strong and healthy characters, depthful plots, and striking adventure are absent in this book. The story gave a feeling of gloomy misery, and anger. The climax and conclusion were blunt and quite unsatisfying, leaving the reader not only

needing more, but wanting a plot as well. Packed with interesting yet depressing insights to mankind, and the actuality of the often glorified Camelot, the story does leave one thinking. Although all the while giving the reader a stale and dismal reaction. Consistently questioning the reader's interest, this book is graced with an uncompleted and depressing response.
