REVIEW OF LEADERSHIP PRINCIPLES FROM PETER DRUCKER HELENA G MARTINS

- This book was a monumental waste of anyones time. It could've been possibly the worst book i've ever read. This book is supposed to be for kids? The kids themselves could of written a better story than this piece of junk! Take my advice- save a tree and ditch this terrible book!

- One of the best book written by Gerald Loeb. I liked the way he said put all your eggs in one basket and see the basket grow. Ofcourse before you put all the eggs in one basket you may want to research on the stock very carefully both the fundamental and technical details and most importantly the market needs to be in a uptrend. 3 out of 4 stocks fail in a market downtrend. Loeb bought most of his winning stock as the market was in a confirmed rally and the leaders were on the verge of breakout on higher volume. A recent such phenomenon happened on 29th Aug 2007 when the market confirmed a new rally and in that rally Baidu, Dryships, Vimpel communications rose over 100% in less than 3 months. A phenomenon seen so often.
